Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request no later than May 24, 2007. Upon determination by the authorized officer that a public meeting will be held, a notice of the time, place, and date will be published in the Federal Register and a local newspaper at least 30 days before the scheduled date of the meeting.

This withdrawal proposal will be processed in accordance with the regulations set forth in 43 CFR part 2300. For a period of 2 years from the date of publication of this notice in the Federal Register, the public lands and minerals will be segregated as specified above unless the application is denied or cancelled or the withdrawal is approved prior to that date.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature which will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of the BLM during the segregative period.

Authority: 43 CFR 2310.3-1(a).

John D. Beck,
Chief, Branch of Lands and Realty.

T. 14 N., R. 107 W.,
Sec. 27, E1⁄4NW1⁄4SE1⁄4NW1⁄4.
T. 14 N., R. 109 W.,
Sec. 19, S1⁄2SW1⁄4SE1⁄4; Sec. 30, NW1⁄4NW1⁄4NE1⁄4.
The areas described aggregate 20 acres in Sweetwater County.

The purpose of the proposed extension is to continue the withdrawal created by PLO No. 6650 for an additional 20-year term to protect the educational, scientific, cultural, and recreational values of the Sugarloaf Petroglyphs and Pine Spring Archeological Sites.

The use of a right-of-way, interagency, or cooperative agreement would not adequately constrain nondiscretionary uses which could result in permanent loss of significant values and irreplaceable resources at the sites.

There are no suitable alternative sites since the lands described herein contain the resource values that need protection.

No water rights would be needed to fulfill the purpose of the requested withdrawal extension.

Records relating to the application may be examined by contacting Janet Booth at the above address or 307–775–6124.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed extension may present their views in writing to the BLM Wyoming State Director at the address noted above.

Comments, including names and street addresses of respondents, will be available for public review at the Rock Springs Field Office, 280 Highway 191 North, Rock Springs, Wyoming, during regular business hours 7:30 a.m. to 4:30 p.m. Monday through Friday, except holidays. Individual respondents may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your comments. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal extension. All interested persons who desire a public meeting for the purpose of being heard on the proposed extension must submit a written request to the BLM, Wyoming State Director within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the time and place will be published in the Federal Register at least 30 days before the scheduled date of the meeting.

This withdrawal extension proposal will be processed in accordance with the regulations set forth in 43 CFR 2310.4.

Melvin Schlager,
Realty Officer.

**SUPPLEMENTARY INFORMATION:**

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary determines that an alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard, or that the application of such standard to such mine will result in a diminution of safety to the miners in such mine. In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modifications.

II. Petitions for Modification

**Docket Number:** M–2006–080–C.

**Petitioner:** Black Beauty Coal Company, 13101 Zeigler 11 Road, P.O. Box 369, Coulterville, Illinois 62237.

**Mine:** Gate Mine, (MSHA I.D. No. 11–02408) located in Randolph County, Illinois.

**Regulation Affected:** 30 CFR 75.507. (Power connection points)

**Modification Request:** The petitioner requests a modification of the existing standard to permit the use of high-voltage non-permissible, submersible pumps in boreholes in an area of its mine where water has accumulated which is not on intake air. The petitioner states that the pumps will be located within the boreholes, the electrical components of the pump will always be separated from the mine atmosphere, and the pumps will be under water continuously. The petitioner proposes to use the specific procedures outlined in this petition for modification. Persons may review a complete description of the procedures at the MSHA address listed in this notice. The petitioner asserts that the proposed alternative method will all times guarantee no less than the same measure of protection afforded the miners employed at Oak Grove Mine by the existing standard.

**Docket Number:** M–2006–082–C.

**Petitioner:** Rosebud Mining Company, 301 Market Street, Kittanning, Pennsylvania 16201.

**Mine:** Penfield Mine, (MSHA I.D. No. 36–09355), located in Kittanning County, Pennsylvania.

**Regulation Affected:** 30 CFR 75.1100–2(e)(2) (Quantity and location of firefighting equipment).

**Modification Request:** The petitioner requests a modification of the existing standard to permit an alternate method of compliance with the requirement for firefighting equipment at temporary electrical installations. The petitioner proposes to use two (2) fire extinguishers or one fire extinguisher of twice the required capacity at all...
