**B. Non-Option Extension**

Should the Government not exercise its option to extend for one of the above option years, the contractor agrees, if requested, to extend the contract for up to 120 days beyond the then scheduled completion date. An equitable adjustment for such an extension will be provided by the Government for the period of the extension in proportion to the student year cost then in effect. In accordance with the clause entitled "Limitation of Cost," the contractor shall notify the contracting officer if such funding will not be sufficient for operations during the period of the extension. The contractor shall perform the work under this paragraph pursuant to a plan for the operation of the center approved by the contracting officer. In the absence of such an approved plan, the contractor will continue to operate the program in accordance with the plans in effect at the time of the extension until written directions are issued by the contracting officer.

**C. Contract Terms and Conditions for Options**

The contracting officer will analyze the option year cost in relation to the current market price in deciding whether to exercise the option. In addition, factors to be considered by the contracting officer in the awarding of the option include the contractor's performance compared to performance standards established by the Director of Job Corps, and the contractor's performance in terms of compliance and qualitative assessments. In addition, there may be other factors impacting on the option year decision. These include other terms and conditions of the contract, fair market value of similar contracts, the necessity of reducing disruptions to operations, innovations, corporate support, audit results, special review findings, other sources regarding compliance with this contract, as well as DOL administrative considerations.

If consideration and analysis of the above factors indicate a new contract is most advantageous to the Government, the option will not be exercised. If the analysis of the above factors results in a favorable determination that is advantageous to the Government, the option may be exercised.

**D. Request for Change In Option Price**

If, after exercise of the option, the contractor has reason to believe the total cost to the Government will exceed the estimated cost as stated in the option, the contractor shall notify the contracting officer in accordance with Clause 52.232-20, Limitation of Costs. If the contracting officer determines that an increase in the option year price is required, and is not caused by a change in the scope of work, such price increase, if made, will not include an increase in fee. If the price increase requested is a result of a scope of work chance, an equitable fee adjustment will be considered.

**ITEM III. INTERPRETATION OR MODIFICATIONS**

No oral statement of any person and no written statement of anyone other than the Contracting Officer shall modify or otherwise affect the terms or meaning of this contract. All requests for interpretations, modifications, or changes shall be made in writing to the Contracting Officer.

**ITEM IV. LIQUIDATED DAMAGES FOR FAILURE TO COMPLY WITH REGULATIONS FOR SEPARATING STUDENTS**

The Contractor agrees to comply with the current requirements for separating students from the program. The Contractor agrees further that the refundable cost to the Government for each day a student is retained (counted in the reported on-board strength) in violation of Job Corps requirements, is determined by dividing the contr year's estimated cost for operating expense by the year's planned average on-board strength and dividing that result by 365. **I.4 52.244-2 SUBCONTRACTS (AUG 1998)**

(a) Definitions. As used in this clause:

“Approved purchasing system” means a Contractor’s purchasing system that has been reviewed and approved in accordance with Part 44 of the Federal Acquisition Regulations (FAR).

“Consent to subcontract” means the Contract Officer’s written consent for the Contractor to enter into a particular subcontract.

“Subcontract” means any contract, as defined in FAR Subpart 2.1, entered into by a subcontractor to furnish supplies or services for performance of the prime contract or subcontract. It includes, but is not limited to, purchase orders, and changes and modifications to purchase orders.

(b) This clause does not apply to subcontracts for special test equipment when the contract contains the clause at FAR 52.245-18, Special Test Equipment.

(c) When this clause is included in a fixed-price type contract, consent to subcontract is required only on unpriced contract actions (including unpriced modifications or unpriced delivery orders), and only if required in accordance with paragraph (d) or (e) of this clause.

**(d) If the Contractor does not have an approved purchasing system, consent to subcontract is required for any subcontract that –**

(1) Is of the cost-reimbursement, time-and-materials, or labor-hour type; or

(2) Is fixed-priced and exceeds–

(i) For a contract awarded by the Department of Defense, the Coast Guard, or the National Aeronautics and Space Administration, the greater of the simplified acquisition threshold or 5 percent of the total estimated cost of the contract; or

(ii) For a contract awarded by a civilian agency other than the Coast Guard and the National Aeronautics and Space Administration, **either the simplified acquisition threshold or 5 percent of the total estimated cost of the contract.**

(e) If the Contractor has approved purchasing system, the Contractor nevertheless shall obtain the Contracting Officer's written consent before placing the following subcontracts:

(f)(1) The Contractor shall notify the Contracting Officer reasonably in advance of placing any subcontract or modification thereof for which consent is required under paragraph (c), (d), or (e) of this clause, including the following information:

(i) A description of the supplies or services to be subcontracted.

(ii) Identification of the type of subcontract to be used.

(iii) Identification of the proposed subcontractor.

(iv) The proposed subcontract price.

(v) The subcontractor's current complete, and accurate cost or pricing data and Certificate of Current Cost or Pricing Data, if required by other contract provisions.

(vi) The subcontractor's Disclosure Statement or Certificate relating to Cost Accounting Standards when such data are required by other provisions of this contract.

(vii) A negotiation memorandum reflecting –

(A) The principal elements of the subcontract price negotiations:

(B) The most significant considerations controlling establishment of initial or revised prices.

(C) The reason cost or pricing data were or were not required;

(D) The extent, if any, to which the Contractor did not rely on the subcontractor's cost or pricing data in determining the price objective and in negotiating the final price;

(E) The extent to which it was recognized in the negotiation that the subcontractor's cost or pricing data were not accurate, complete, or current; the action taken by the Contractor and the subcontractor; and the effect of any such defective data on the total price negotiated;

(F) The reasons for any significant difference between the Contractor's price objective and the price negotiated; and

(G) A complete explanation of the incentive fee or profit plan when incentives are used. The explanation shall identify each critical performance element, management decisions used to qualify each incentive element, reasons for the incentives, and a summary of all trade-off possibilities considered.

(f)(2) If the Contractor has an approved purchasing system and consent is not required under paragraph (c), (d), or (e) of this clause, the Contractor nevertheless shall notify the Contracting Officer reasonably in advance of entering into any (i) cost-plus-fixed-fee subcontract, or (ii) fixed-price subcontract that exceeds either the simplified or this contract. The notification shall include the information required by paragraphs (f)(1)(i) through (f)(1)(iv) of this clause.

(g) Unless the consent or approval specifically provides otherwise, neither consent by the Contracting Officer to any subcontract nor approval of the Contractor's purchasing system shall constitute a determination—

(1) Of the acceptability of any subcontract terms or conditions;

(2) Of the allowability of any cost under this contract; or

(3) to relieve the Contractor of any responsibility for performing this contract.

(h) No subcontract or modification thereof placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis, and any fee payable under cost-reimbursement type subcontracts shall not exceed the fee limitations in FAR 15.404-4(c)(4)(i).

(i) The Contractor shall give the Contracting Officer immediate written notice of any action or suit filed and prompt notice of any claim made against the Contractor by any subcontractor or vendor that, in the opinion of the Contractor, may result in litigation related in any way to this contract, with respect to which the Contractor may be entitled to reimbursement from the Government.

(j) The Government reserves the right to review the Contractor's purchasing system as set forth in FAR Subpart 44.3.

(k) Paragraphs (d) and (f) of this clause do not apply to the following subcontracts, which were evaluated during negotiations:

## **I.5 COMPETITION IN SUBCONTRACTING (DEC 1996) FAR 52.244.5**

(a) The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract.

(b) If the Contractor is an approved mentor under the Department of Defense Pilot Mentor-Protege Program (Pub. L. 101-510, section 831 as amended), the Contractor may award subcontracts under this contract on a noncompetitive basis to its proteges.

## **I.6 SUBCONTRACTS FOR COMMERCIAL ITEMS AND COMMERCIAL COMPONENTS FAR 52.244-6**

(a) Definitions: "Commercial item, as used in this clause, has the meaning contained in the clause 52.202-1, Definitions.

"Subcontracts," as used in this clause, include a transfer of commercial items between divisions, subsidiaries, or affiliate of the Contractor or subcontractor at any tier.

(b) To the maximum extent practicable, the Contractor shall incorporate, and require its subcontractor at all tiers to incorporate, commercial items or non-developmental items as components of items to be supplied under this contract.

(c) Notwithstanding any other clauses of this contract, the Contractor is not required to include any FAR provisions or clause, other than those listed below to the extent that they are applicable and as may be required to establish their reasonableness of prices under Part 15 in a subcontract at any tier for commercial items or commercial components:

- (1) 52.222-26, Equal Opportunity (E.O. 11246);
- (2) 52.222-35, Affirmative Action for Disabled Veterans and Veterans of the Vietnam Era (38 U.S.C. 4212 (a));

- (4) 52.247-64 Preferences for Privately Owned US Flagged Commercial Vessels (flow down not required for subcontracts awarded beginning May 1, 1996).

(d) The Contractor shall include the terms of this clause including this paragraph (d), in subcontracts awarded under this contract.

## STAFFING CHART - ATTACHMENT E

### Instructions for Completing the Staffing Chart:

In order to assure that all cost and staffing proposals are evaluated fairly it is imperative that proposals be presented as clearly and as consistently as possible.

In addition to the presentation of staff resources by cost groups under the ETA 2110 format, it is necessary to display, for the purpose of evaluation, the number of staff by functional groups in accordance with the outline of the Statement of Work, Part I, Section C.

The following Staffing Chart shall be completed. The number of staff in each function shall be shown on this chart. The costs of each staff position shall be shown in the narrative justification for each ETA 2110 line of your cost proposal. It is realized that each contractor has its own manner of organizing its staff. However, for the purposes of this proposal, follow the outline of this staffing chart. Also, to assure cost proposal consistency please allocate each staff member cost in your cost proposal in accordance with the ETA 2110 Line Number and Cost Code as detailed in the PRH, Chapter 9, for each separate position. The line number and cost code may differ from Attachment E.

It is realized that different contractors have different position titles for similar functions. The Staffing Chart describes functions. Try to allocate your own staff titles to the functional titles on the chart wherever possible. In the event that a position is so unique that it will not fit any title on the chart, place the position in the appropriate place on the chart and indicate by Line Number and/or Cost Code where it can be found in your cost proposal.

### Definitions:

1. Function. The major purpose of the position.
2. Sub-Function. A more precise description than the function. If none is needed do not complete the column.
3. Line Number. The ETA 2110 cost line number. See PRH, Chapter 9.
4. Cost Code. The cost reference code from the instructions in the PRH, Chapter 9, Appendix 901.
5. Number. The number of staff at each position title. If none are proposed, leave the line blank. If one person performs more than one function or one person performs the same function in two or more different functional areas, show the allocation of the person's time as a decimal (e.g., .5) allocation to the proper line.
6. Remarks. The center title, if different from the function title shown, and any comments you wish to make.
7. Note. If a position is contracted, show the number in parentheses ( ) and indicate the Line Number and Cost Code to which the cost is charged in the remarks column.

This should be submitted with the narrative portion of the Transition Proposal. The incumbent contractor shall submit a Phase-Out Proposal on a ETA 2110 format outlining in detail those costs related to the termination of the contract and phase-out of the incumbent's operations, as well as a narrative justification for each line item expense.

Failure to comply with provisions relating to fair and equitable compensation for all employees may constitute sufficient cause to justify non-selection of a proposal. The total compensation plan required to be submitted by the offeror, for professional employees, will be viewed as being within the purview of FAR 22.1.

Total compensation (salary and fringe benefits) of professional employees under service contracts may, in some cases, be lowered by recompetition of these contracts. Lowering the compensation can be detrimental in obtaining the necessary quality of professional services needed for adequate performance of service contracts. It is, therefore, in the best interest of the Government that professional employees as defined in 29 CFR Part 541 be properly and fairly compensated in these contracts. As a part of the proposals, offerors will submit for evaluation purposes a "Total Compensation Plan" (salaries and fringe benefits) for professional and non-professional employees. This plan will also include a description of any bonuses, monetary awards, and other contingent payment plans for all staff charged directly to this contract. The narrative must explain the policy under which these payments will be dispersed.

**I.** All Representations and Certifications required in Section K of this RFP shall be made part of the Business Management Proposal.

**J.** The Job Corps Area Wage and Fringe Benefit Survey.

The Job Corps Area Wage and Fringe Benefit Surveys Handbook (hereafter referred to as the Handbook) was developed to assist both Federal staff and potential offerors.

The purpose of the Handbook is three-fold: (1) to determine expected staffing costs for the development of a center operations cost model, (2) to assess the reasonableness of proposed costs in evaluating proposals for center operations and (3) to provide a structured approach for offerors to follow when collecting salary and fringe benefit data.

Offerors submitting proposals in response to center RFPs are expected to follow the procedures outlined in the Handbook. As part of this process, offerors will be required to provide wage and fringe benefit data for both professional and non-professional center staff. The position descriptions included in the Handbook will serve as the basis for the development of each individual wage range. It is recognized that some position descriptions will deviate from those utilized by offerors. If an offeror perceives a center staff position to be substantially different, it is recommended that it is brought to the Government's attention in the narrative portion of the cost proposal. This also applies to any substantial deviations in proposed salaries as compared to the wage range produced.

When providing wage survey data, offerors should include major staff in addition to supervisory positions (e.g. teachers, vocational instructors, counselors, Residential advisors, culinary workers, security staff, etc.).

#### **K. Option Extension Information**

The Business Management Proposal shall include estimated costs, including G&A, overhead, fixed fee and OA&P (if applicable), for three 1-year extensions of this contract. The Government shall have the unilateral right to exercise options to extend the contract for additional year(s) pursuant to Clauses 52.217-08 and -09 of the Schedule, "Option to Extend." Such extensions shall herein after be referred to as "options."

The offerors will explain how the costs for each option year were estimated. A budget for each option year will be submitted on an ETA 2110. The contractor understands that the estimated costs for operating the Job Corps center in each of the option years will be based on the agreed-to budget for ongoing expense in the preceding year, with an appropriate adjustment for price inflation using the same inflationary factor that is reflected in the Congressional Job Corps appropriation for the budget or program year in which the option year begins. **(The inflationary allowance for PY 2002, beginning July 1, 2002, is 2.3%.)** The amounts proposed in the Option Years are therefore considered provisional.

The facility shall be provided as Government-furnished property at no cost to the contractor.

For purposes of this contract, “costs” is defined as the total of the estimated costs, including G&A and overhead expenses, and the fixed fee (if any).

**L.** A separate 2110 must be submitted for costs associated with O/A and Graduate Services in the Business Mgt. Proposal; it will be scored separately. **(Not Applicable)**

## 6. Section 6: Transition/Phase-out Proposal (original + 2 copies)

Incumbents shall submit a Phase-Out Proposal and new offerors shall submit a Transition Proposal. Narrative and cost justification shall be bound together.

The Government recognizes that if the incumbent contractor is not the successful offeror, the successful offeror will then take over an existing Job Corps center operation as negotiated. If so, the incoming contractor will have a transition period in which to become familiar with the presently operating center, as well as time to interview and hire staff necessary to operate the center.

The successful offeror will be required to take over complete operation of the center with the start of performance under the resultant contract.

**The transition period begins no less than 30 days prior to that date and will be negotiated as a separate statement of work.**

Accordingly, offerors other than the incumbent contractor should submit a separate proposal outlining in detail their transition plan. Included will be the period of time required for each action, staff requirements, and major steps to be accomplished during the transition period.

The Government also recognizes that if the incumbent is not the successful offeror, the incumbent contractor will have certain activities to perform in the orderly phase-out of operations; therefore, the incumbent shall submit a 30-day Phase-Out Proposal outlining in detail the phase-out plan. Included will be the period of time involved for each action, staff requirements, and major steps to be accomplished during the phase-out period. The phase-out period will begin the same time as the transition period, 30 days prior to the end of the incumbent's contract, and end on the last day of the incumbent's contract.

It is the intent of the Government to have an orderly operation during the last 30 days of the incumbent's contract (see Clause 52.237-3, Continuity of Service). Therefore, the incumbent contractor will be allowed only the normal costs of operating the center for the final month of the contract. The incumbent's administrative activities required to orient the incoming contractor will be an allowable direct cost. It is the Government's expectation that the outgoing contractor will use persons already included in its organizational indirect cost package for such activities as inventory comparison checks with the new contractor and final billings comparison checks with the new contractor and final billings after contract expiration. The allowable cost for Phase-Out will be limited to unused and unpaid leave for which cost accrual has not been made and if applicable, severance pay and relocation in accordance with personnel policies approved for this contract by the contracting officer and any other costs determined to be reasonable by the contracting officer.

There will be only one operating contractor responsible for the center's operation at any given time. Transition preparations shall not cause any unreasonable interference with the departing contractor's operation. When the new contractor begins operations, the former contractor will not interfere with the new operator's program.

**7. Minority and Small Business Subcontracting Plan - (3 copies) (Does not apply to Small Businesses)**

Offerors shall submit a subcontracting plan in accordance with Clause 52.219-09. The plan must separately address subcontracting with 1) small business, 2) small disadvantaged business, 3) women-owned small business concerns, and 4) HUB-Zone small business concerns. For purposes of this procurement, the SIC Code is 8744. Offerors are considered small businesses if their annual sales or receipts for the preceding three (3) years do not exceed \$20 million.

Proposed subcontracting of key components must be described in detail including organizational relationships and procedures established to ensure proper management, oversight, training, etc. A complete breakdown of costs associated with the subcontracting of a key component of center operations must be displayed in the Business Management Proposal. This should also include any costs associated with oversight of the subcontractual relationship.

## SECTION M. EVALUATION FACTORS FOR AWARD 3-JC-286-24

### I. EVALUATION OF PROPOSALS AND SELECTION FOR AWARD

#### A. Procurement Review Panel

Proposals will be reviewed by a panel of specialists. Each panelist will evaluate the proposals for acceptability with emphasis on the various specific evaluation categories enumerated in this Section (M). The Government may award a contract on the basis of initial proposals received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint.

#### B. Evaluation Categories

All submissions referred to above except for the Transition Proposal will be evaluated based on the following points:

	Points Possible
1. Oral Presentation (Center)	47

<b>TOTAL MAXIMUM POINTS POSSIBLE</b>	<b>100</b>

## **C. Evaluation Criteria**

### **1. Oral Presentation (47 points)**

Each Oral Presentation shall be evaluated against the criteria detailed below. Each of the three criteria (Management Capability, Training Program Design, and Support Service Effectiveness) will be weighted equally.

- a.** To what extent is the design of each section of the proposal complete, clear, concrete and consistent, internally and with other proposal sections?
  
- b.** To what extent are the systems, procedures and approaches proposed consistent with the Job Corps mission and policies and reflective of Regional requirements?

- d.** How effective is the proposal in offering feasible, innovative strategies and methods to ensure the achievement of Job Corps' specified outcomes and quality indicators?

### **2. Staff Resources Proposal (SRP) (15 points)**

Each offeror's Staff Resources Proposal (SRP) will be evaluated to determine the level and adequacy of staffing proposed to deliver the program; the qualifications proposed in relation to the duties described in the offeror's position descriptions; the scheduling and coverage of critical functions; the credentials, experience and accomplishments of proposed key staff; the demonstrated level of commitment to

work on the contract, appropriateness and adequacy of the staff incentive plan; and the degree of support offered through G & A.

### **3. Past Performance and Experience (25 points)**

#### **a. New Firms (other than Job Corps Outreach, Admission, and/or Placement Contractors):**

For purposes of this procurement, in addition to the information provided by the offeror in response to Section L, the Government will consider information received from other governmental and non-governmental sources.

The Government will focus on information that demonstrates quality of performance relative to the size and complexity of the procurement under consideration. The contractor's references will assist in collecting this information. References other than those identified by the offeror, may be used by the Government. All such information may be used in the evaluation of the offeror's past performance.

The Government reserves the right not to contact all of the references provided by the offeror. Names of individuals providing reference information about an offeror's past performance shall not be disclosed.

#### **b. New Firms (Job Corps Outreach, Admission, and/or Placement Contractors):**

In addition to the information provided by the offeror in response to Section L, the Government will consider such additional information as may provide further insight on the offeror's past experience and performance, and how such experience demonstrates the offeror's ability to perform the contract, including but not limited to the offeror's OA/P automated past effectiveness report(s) and the past effectiveness report(s) received from other Job Corps offices.

The Government will focus on information that demonstrates quality of performance relative to the size and complexity of the procurement under consideration. The contractor's references identified in this section will assist in collecting this information. References other than those identified by the offeror, may be used by the Government. All such information may be used in the evaluations of the offeror's past performance.

The Government reserves the right not to contact all of the references provided by the offeror. Names of individuals providing reference information about an offeror's past performance shall not be disclosed.

**c. Past Effectiveness of Experienced Job Corps Center Operators: (Center Operations)**

The Past Effectiveness rating for an experienced Job Corps center operator is based on a combination of the Job Corps Automated Past Effectiveness Report (20 points) and Additional Information (5 points) at the discretion of the Contracting Officer.

**1) Automated Past Effectiveness Report (20 points)**

Each center operator will receive an automated past effectiveness score based on an overall score from four measures associated with the contractors' Outcome Measurement System (OMS), Student Safety Satisfaction Survey (SSS), On-Board-Strength Report (OBS), and Quality Compliance Rating (QCR). The Center's Automated Past Effectiveness Report will be generated automatically by the Job Corps Data Center quarterly.

Further, in the event that the offeror is the incumbent contractor for the Center being procured, the offeror will be evaluated using the

weighted incumbent center score.

For example, if Center A is being procured and the incumbent contractor is XYZ Corp. To determine XYZ's past effectiveness score for that Center, the number shown in the 75% Rating column of the Center's Automated Past Effectiveness Report will be used.

## **2) Additional Information (5 points)**

In assigning these points, the contracting officer will consider such additional information as may provide further insight on the offeror's past experience and performance, and how such experience demonstrates the offeror's ability to perform the contract, including but not limited to, past effectiveness reports received from other Job Corps Offices and other Federal Agencies.

The Government reserves the right not to contact all of the references provided by the offeror. Names of individuals providing reference information about an offeror's past performance shall not be disclosed.

## **4. Minority and Small Business Subcontracting Plan (5 Pts)**

(Does not apply to Small Businesses)

Your plan will be evaluated in terms of quality, conformance with regulatory requirements, and corporate efforts/commitment. The Office of Job Corps seeks to provide incentives for offerors to subcontract major portions of center operations with 1) small business, 2) small disadvantaged business, and 3) women-owned small business concerns. Therefore, up to five points may be

awarded where the proposed subcontracting involves a key component of

center operations (i.e. major components - Residential Living, Academic Education, Vocational Training, Administration; minor components - OA&P, Health Services).

## **5. Cost Justification (8 points)**

Each offeror shall submit a Business Management Proposal which shall show all costs proposed to fulfill the requirements of the solicitation. The Cost Proposal evaluation is a technical assessment of whether the costs proposed support the offeror's technical proposal. It is not an evaluation of the total estimated cost.

Proposals will be evaluated on the extent to which the allocation and supporting explanation of costs shown in the proposed contract budget assure a reasonable and prudent expenditure of Federal funds in the performance of this contract, and within the requirements of the program.

No Job Corps funds will be provided to pay compensation to any individual, either as a direct cost or as an indirect cost, or proration at a rate in excess of \$141,300 per year. Proration means that the amount charged for a less than full-time employee can not exceed an annualized rate of \$141,300. Compensation is defined as salaries and cash bonuses exclusively. This does not include fringe benefits. This applies to all functions within the Job Corps contract including subcontracted services.

In evaluating the Cost Proposal category, the Government will not weigh cost against technical merit, but will evaluate the credibility and reasonableness of the cost proposal relative to the technical proposal. The cost must be realistic in relation to the services offered. The Estimated Cost itself will not be scored.

In evaluating the Cost Proposal, the Government will take the following factors into consideration:

- a. Adherence to RFP requirements.
- b. Explanation and support of all costs proposed: wages, benefits, utilities, services, supplies, etc.
- c. Explanation and support of G&A costs. G&A costs should be supported by a full description of services to be provided to the center by corporate support staff. The Business Management Proposal may propose a G&A ceiling rate higher or lower than the approved provisional rate. The proposed rate, if accepted, will become the ceiling for the entire contract period, including option years. Offerors must calculate G&A Expense at the proposed G&A ceiling rate.
- d. Consistency of costs with technical proposal. Mathematical errors, incompleteness of data, improper line item designations, etc., will be discussed with the offerors in the competitive range, if necessary.
- e. **Total compensation plan for all employees**

The Government will evaluate the Total Compensation plan to ensure that this compensation reflects a sound management approach and an understanding of the requirements to be performed. It will include an assessment of the offeror's ability to provide uninterrupted work of high quality. The total compensation proposed will be evaluated in terms of enhancing recruitment and retention of personnel and its realism and consistency with a total plan for compensation (both salaries and fringe benefits). Therefore, the cost justification evaluation category will include an assessment of the Total Compensation Plan.

- 1) In establishing compensation levels for all employees, the total compensation (both salaries, fringe benefits, bonuses, or monetary awards to employees) proposed shall reflect a clear understanding

of the requirements of the work to be accomplished and the suitability of the proposed compensation structure to obtain and retain qualified personnel. The salary rates or ranges must recognize the distinct differences in skills and the complexity of varied disciplines as well as job difficulty. Proposals offering total compensation levels less than currently being paid by the predecessor contractor for the same work will be evaluated on the basis of maintaining program continuity, uninterrupted work of high quality, and availability of required competent employees. Offerors are cautioned that instances of lowered compensation for essentially the same work may be considered a lack of sound management judgment in addition to indicating a lack of understanding of the complexity of the requirements.

2) Proposals which are unrealistically low or do not reflect a reasonable relationship of compensation to the job categories so as to impair the contractor's ability to recruit and retain competent employees may be viewed as reflecting a failure to comprehend the complexity of the contract requirements. The Government is concerned with the quality and stability of the work force to be employed on this contract. The compensation data required will be used in evaluation of the offeror's understanding of the contract requirements.

3) An assessment of the potential for adverse effect upon performance and maintenance of the required number of employees with requisite skills resulting from an unrealistically low compensation structure will also be made.

**6. Transition/Phase-out Proposal (0 points)**

Although no points are assigned to this portion of the submission, all offerors, with the exception of the incumbent, are required to submit a transition proposal. The incumbent shall submit a phase-out proposal.

**Transition proposals shall be evaluated to determine the following:**

- a. To what extent does the offeror's plan display knowledge of the scope of tasks to be accomplished in transition?
- b. How effective is the offeror in proposing complete and concrete plans and procedures to effect an orderly transition of the Job Corps center and OA&P functions?
- c. To what extent are the corporate resources/staffing proposed adequate to complete the scope of tasks outlined in the transition plan?

**II. SUPPLEMENTAL INFORMATION**

The following information is presented to further assist offerors in responding to this RFP, as well as to provide information regarding how the Government will make the award decision.

**A. Notice on Key Personnel**

Offerors shall indicate whether persons being proposed as key personnel are currently being proposed as key personnel for any other projects. Offerors must notify the

Contracting Officer in writing of any change in the availability of proposed key personnel when the change in status occurs, at any point in the procurement process.

Prior to award of a contract the Government will ask the successful offeror to verify the availability of all named Key Personnel. If for any reason, the named Key Personnel will

not be assigned to this project, the offeror may submit the name and qualifications of one of more proposed replacements. If, in the opinion of the Contracting Officer, a person proposed as a replacement is of substantially equivalent qualifications, award may still be made to the offeror. If proposed replacements are not equivalent, the contracting officer may find the offeror non-responsible. The contracting officer may then award the contract to another offeror or reopen negotiations with all offerors.

## **B. Competitive Range**

In instances where more than one proposal is found acceptable, the Contracting Officer shall establish a competitive range in accordance with FAR 15.306. The competitive range will consist of proposals which, based upon review panel scores, are grouped at more or less the same level and are competitive with one another. The limits of what constitutes the competitive range in a particular case is a judgement matter for determination by the Contracting Officer.

## **C. Discussions -Final Proposal Revisions**

Discussions will be held with all offerors who submit proposals determined to be within the competitive range. However, in some instances, award may be made on the basis of initial proposals received (52.215-16) shall be given an opportunity to submit such costs, technical, or other revisions in their proposals as may result from the discussions. All such offerors shall be informed in writing of the closing of negotiations and the common due date for receipt of final proposal revisions. Technical revisions will be in writing as a response to the Government's written concerns.

## **D. Selection for Award**

Award will be made to the offeror who has submitted the proposal that is most advantageous to the Government. In making this determination, the government will weigh technical factors more heavily than total cost.

## **E. Calculation and Evaluation of Cost**

The term "cost" as used in this RFP is defined as the total of the estimated cost, including G&A and overhead expense, and the fixed fee (if any). Evaluation of proposed costs will take into consideration comparison of costs to past data, allowability and allocability of costs and reasonableness of fixed fee and will be made in accordance with FAR 15.404 and the following will be considered in making the final selection of the successful offeror:

1. Base two-year costs
2. Option year costs
3. Total Costs
4. Transition costs
5. Phase-out costs

Except when it is determined, in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total costs for all options to the total costs for the basic requirement. Evaluation of options will not obligate the Government to exercise the options. In evaluating the total 5 year costs, the Government will place more weight on the base 2 year costs because of the uncertainty of award of option years.

The Government may reject an offer as non-responsive if it is materially unbalanced as to prices for the basic requirement and the option quantities. An offer is unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.

After a cost analysis of each Business Management Proposal for the base period (i.e.,

the base two-year period for the operation of the center), the options, and the total cost, a further evaluation will be performed to determine the reasonableness of cost presented in the Phase-Out Proposal and/or the Transition Proposal. The incumbent will not incur a transition cost, and the phase-out cost will act as a negative factor for a challenging offeror when considering total estimated cost. In consideration of the above, it is imperative that the incumbent not overstate phase-out costs, as they will be reduced for cost comparison purposes based on their failure to meet the test of reasonableness noted above.

The contracting officer's decision to award an option will be made in accordance with FAR 17.207(c).

### **ITEM III. CONTRACTOR RESPONSIBILITY**

The Contracting Officer will make a determination of responsibility in accordance with FAR 9.105-2. Should a determination of non-responsibility be made, the offeror will be dropped from consideration for contract award regardless of technical scores and cost. In the case of a small business concern, the matter will be referred to the Small Business Administration pursuant to FAR 19.6. Factors considered in determining responsibility include:

- \* Financial resource adequacy
  
- \* Ability to comply with the Statement of Work
  
- \* Past record of performance
  
- \* Record of integrity and business ethics
  
- \* History of prevention and management of significant incidents, if offeror has previously operated or is presently operating a Job Corps center

- \* Department of Labor review reports of offeror's Job Corps Center(s) if offeror has previously operated or is presently operating a center
- \* Program and fiscal controls
- \* Quality and quantity of corporate staff to be assigned to contract.
