Project Description	CT will use these funds to promote a higher quality service delivery and speed of access to those services, to improve employment outcomes for dislocated workers. CTDOL plans to implement several data integration strategies that support front-line staff to better connect dislocated workers to the services they need. The strategies include the provision of technology and communication improvements that integrate, leverage, link to and adapt information and on-line services across the UI, ES, Dislocated Worker, Rapid Response, Trade Adjustment Assistance and Labor Market Information programs.
