

<p>U.S. Department of Labor Employment and Training Administration Office of Apprenticeship (OA) Washington, D.C. 20210</p>	<p><u>Distribution:</u>  A-541 Headquarters A-544 All Field Tech A-547 SD+RD+SAA+; Lab.Com</p> 	<p><u>Subject:</u> Revision to an Existing Apprenticeable Occupation – Construction Craft Laborer</p> <p><u>Code:</u> 200</p>
<p>Symbols: DSNIP/DMc</p>		<p>Action: Immediate</p>

**PURPOSE:** To inform the OA, and the State Apprenticeship Agencies (SAA) staff, Registered Apprenticeship Program Sponsors and other Registered Apprenticeship Partners of revisions to the Construction Craft Laborer (CCL) apprenticeable occupation:

Construction Craft Laborer  
O\*NET-SOC Code: 47-2061.00  
RAPIDS Code: 0661R  
Term: 4,000  
Type of Training: Time-based

**BACKGROUND:** The Laborers’ International Union of North America (LIUNA) first submitted the Construction Craft Laborer occupation for an apprenticeability determination in 1994 under 0661 and then revised it in 2008 under 0661HY.

The CCL works in a high performance driven industry, on a wide variety of jobs. CCLs build, renovate and demolish structures such as high rises, power plants, shopping centers, office complexes, and medical facilities; build, renovate and demolish infrastructure such as roads, bridges, locks, dams and tunnels; build, renovate and demolish utilities including pipelines, treatment plants and delivery systems, power generation and distribution facilities and telecommunications; CCLs build, maintain, repair, renovate and demolish parks, recreation areas, and cemeteries; and CCLs remediate several kinds of hazardous materials including hazardous waste, asbestos and lead.

The attached skill areas need to be satisfied by the CCL apprentice to develop the competencies and knowledge needed to obtain the expertise in the Laborers Trade. All CCL apprentices must complete the Related Instruction hours and On-the-job learning hours for the Core Skills. (The Related Instruction descriptions follow the skills descriptions.) To complete the apprenticeship program, CCL apprentices must also complete the Related Instruction and On-the-job learning in one or more of the areas of concentration that follow the Core Skills.

If you have any questions or need other assistance, please contact Doug McPherson, Apprenticeship and Training Representative, Division of Standards and National Industry Promotion (DSNIP), at 202-693-3783.

**ACTION:** LIUNA Training affiliated programs who submit the newly revised CCL program 0661R to the appropriate Registration Agency can begin apprentice registration as soon as their 0661R program is approved. Apprentices currently registered in 0661 or 0661HY can either complete the program to graduation or transfer into 0661R. LIUNA Training affiliated programs who have received approval from the Registration Agency for the 0661R will have until December 31, 2015, to end either 0661 or 0661HY program. Sponsors that submit a request to revise their program to the 0661R CCL occupation after December 31, 2015, will have 1-year from the date of registration to either cancel or transfer all current apprentices from 0661 or 0661HY programs.

OA and SAA staff should familiarize themselves with this bulletin.

**NOTE:** This bulletin is being sent via electronic mail.
