TALENT DEVELOPMENT INNOVATIONS 2015-2016	06
APPENDIX A	10
APPENDIX B	12
APPENDIX C	22

Introduction

Innovation has driven New Jersey's growth and prosperity for many years. Maintaining that competitive edge in the 21st Century requires a knowledge-based economy, supported by a highly-skilled workforce and a state-of-the-art talent development strategy to guide its training and education system.

Passage of the federal Workforce Innovation and Opportunity Act (WIOA) in 2014 served as a powerful catalyst for transforming the State of New Jersey's workforce development strategies. At the center of New Jersey's workforce development strategies is increasing the number of residents with an industry-valued credential or degree through high-quality partnerships and integrated investments. To accomplish this, New Jersey has worked to:

- Ensure that the department's workforce investments are aligned with the needs of employers; and
- Expand the number of residents who have access to high-quality career guidance and job search assistance.

In Program Year 2015, key elements of the Talent Development System were put in place with input and support from New Jersey stakeholders. This report highlights several of the recent state-level initiatives.

NEW JERSEY'S TALENT DEVELOPMENT

The Mission of New Jersey's Talent Development Strategy

New Jersey will increase the number of residents with an industry-valued credential or degree through high-quality partnerships and integrated investments.

Strategy

Today, more New Jersey residents are working than ever before. New Jersey's economy grew by 83,600 private sector jobs in 2015 alone, and the state has added more than 250,000 private sector jobs over the past six years. During this period of growth and recovery, New Jersey has built a talent development system that is ensuring more people have the skills, abilities, and connections to pursue economic opportunities and ensuring that the state has the skilled workforce needed to support and sustain economic growth.

This talent development system includes:

1. New partnerships with employers across the state's seven key industries;
2. Strong collaborations between workforce programs, education, and higher education;
3. The use of technology to better connect jobseekers and employers;
4. Better labor market intelligence to inform workforce investments; and
5. Innovative partnerships between the state, local governments, community- and faith-based organizations, and educational institutions.

WORKFORCE PROGRAMS CAN MAKE CRITICAL INVESTMENTS IN TALENT DEVELOPMENT

New Jersey workforce development system, spanning more than 35 different programs, is a critical foundation for an expanded talent development system. These programs are strategic investments that can yield significant returns.

When they become focused on broader goals and a common mission, they can be a powerful catalyst, developing and strengthening lasting partnerships with:

- Employers, groups of employers and industry associations;
- organized labor;
- Community colleges and higher education;
- Career and technical education high schools and comprehensive high schools;
- Libraries; and
- Community- and faith-based organizations

Working together will strengthen all of these important organizations and institutions, helping them to increase their capacity to provide key services, helping them to connect to individual employers, and helping them to ensure that their programs are aligned with the needs of the labor market.

These partnerships will also help these institutions play a more productive role in the labor market.

NEW JERSEY'S TALENT DEVELOPMENT STRATEGY IS FOCUSED ON FIVE CRITICAL THEMES

Theme 1: Building Career Pathways with a focus on Industry- Valued Credentials

Theme 2: Expanding High-Quality. Employer-Driven Partnerships

Theme 3: Providing Career Navigation Assistance through One-Stop Career Centers and Broad Partnerships

Theme 4: Strengthening Governance through Effective Workforce Development Boards and Regional Collaborations

Theme 5: Ensuring System Integrity through Metrics and Greater Transparency

These themes run through LWD's workforce development investments in Program Year 2015, which include the creation of Targeted Industry Partnerships, an Industry- valued Credential List, Talent Development Centers, and New Jersey Career Connections.

Key Definitions

A high-quality, employer-driven partnership features:

- Private sector employers, actively working with their public and non-profit colleagues to focus upon the specific jobs and skills in demand by the region's leading sectors.
- A clear mission and well-defined roles for all of the partner organizations.
- Distinct career pathways, defined by a series of degrees, certificates, and other credentials that employers value and look for in hiring.
- Widespread use of timely industry and workforce data, ensuring that partners' employment and training investments target authentic job opportunities—not declining occupations and obsolete skills.
- Practical, collaborative learning experiences where trainees apply lessons from the classroom in real-world settings through internships, mentorships, or apprenticeships.
- Clear measures of program effectiveness so partners can see meaningful outcomes in terms of trainee job placement and credentials earned.
- Reliable, sustainable funding streams.

Career pathways are a series of education and training experiences resulting in industry-valued credentials leading to employment, promotion, and/or advanced education. Career Pathways are industry-focused, have diverse entry and exit

points, and include integration of adult basic skills, digital literacy, employability skills, and work-based learning, including registered apprenticeships.

TALENT DEVELOPMENT INNOVATIONS 2015-2016

The major workforce projects for Program Year 2015 were focused on expanding high-quality, employer-driven partnerships and high-quality career navigation and job search assistance services for residents. Ultimately, these programs seek to increase the number of New Jersey residents with an industry-valued credential or degree.

EXPANDING HIGH-QUALITY, EMPLOYER-DRIVEN PARTNERSHIPS

TARGETED INDUSTRY PARTNERSHIPS

Since 2012, LWD's seven Talent Networks have worked to connect employers with jobseekers trained to fill critical jobs in New Jersey's leading industry sectors: Advanced Manufacturing; Financial Services; Health Care; Life Sciences; Retail, Hospitality, and Tourism; Technology; and Transportation, Logistics, and Distribution. The Talent Networks, led by colleges, universities, and business organizations with knowledge and expertise in their specific industries, have built partnerships with employers, educational institutions, and workforce organizations while providing assistance to students and jobseekers.

Beginning in 2016, each of the Talent Networks have worked closely with employers, local Workforce Development Boards, educational institutions, and other stakeholders to develop high-quality, employer-driven partnerships, known as Targeted Industry Partnerships (TIPs), across the state.

Each Talent Network seeks to promote these new partnerships in regions of New Jersey with high concentrations of employers in their specific industry. To build these partnerships, the Talent Networks:

- Engage and convene employers to identify common skill gaps and workforce needs and identify the skills, abilities, and credentials that are in demand;
- Facilitate the development of a workforce plan for each TIP to respond to identified workforce needs and opportunities; and
- Create a strategy for building and sustaining the partnership through commitments from employers, Workforce Development Boards, educational institutions, and other key stakeholders.

NJLWD is committing a minimum of \$5 million to support the implementation of the strongest workforce investment ideas developed by the Targeted Industry Partnerships.

INDUSTRY-VALUED CREDENTIALS LIST

New Jersey's ability to compete in the 21st Century's global economy depends on giving 35% of its workforce (1.4 million employees) more opportunities to acquire valuable work credentials beyond high school. The critical importance of post-secondary credentials became clear during the Great Recession of 2008-10. As the Lumina Foundation found, four of every five jobs lost nationwide during that slowdown were held by Americans with a high school diploma or less. In contrast, jobs for workers with a bachelor's degree or more actually increased during those years, with an additional 10 million jobs opening up for them nationally since 2010.

To help New Jersey jobseekers identify the specific credentials that employers are seeking, the Department has developed an initial list of Industry-Valued Credentials based on extensive analysis of New Jersey labor market data and detailed feedback from employers statewide.

A credential is defined as “a recognized degree, diploma, certificate, or certification awarded for an occupation.” Industry-valued credentials have the following characteristics:

- Valued and demanded by employers
- Portable – skills learned are transferable and provide broad opportunities
- Stackable – skills learned may lead to opportunities for continuous or advanced training and education
- Lead to higher wages, career advancement, and/or increased job security

The initial Industry-Valued Credential List will be reviewed and updated quarterly by the state Credentials Review Board (CRB). That panel includes senior staff from New Jersey’s local One-Stop Career Centers and Workforce Development Boards as well as the NJ State Employment & Training Commission, NJ Department of Education, NJ Secretary of Higher Education, and NJ Department of Labor & Workforce Development.

Interested parties are invited to continue offering comments and suggestions to continually improve the List’s content and accuracy.

TALENT DEVELOPMENT CENTERS

Building upon New Jersey’s commitment to align the state’s workforce with the needs of employers, LWD has launched three new Talent Development Centers to promote partnerships between key industries and the state’s colleges and universities. The three Talent Development Centers serve as “centers for excellence” for providing workforce training and skill development focused on a specific, key industry in New Jersey:

- Advanced Manufacturing at Camden County College;
- Health Care at Rutgers University; and
- Transportation, Logistics & Distribution at Union County College.

Each Talent Development Center:

- Received \$900,000 in state funds to provide workforce development training programs in their respective industries.
- Serve as an anchor for expanded high-quality, employer- driven partnerships.
- Expand the capacity of the state’s higher education institutions to provide education and training aligned with the needs of the state’s key industries.
- Provide industry-focused training for dislocated workers and currently employed/incumbent workers

EXPANDING HIGH-QUALITY CAREER NAVIGATION AND JOB SEARCH ASSISTANCE SERVICES NEW JERSEY CAREER CONNECTIONS

The NJ Department of Labor and Workforce Development’s New Jersey Career Connections initiative seeks to ensure that all New Jerseyans have the tools and resources they need to have successful careers. Through this initiative,

Government, nonprofit, and educational institutions, including One-Stop Career Centers, community colleges, public libraries, and

community-based and faith-based organizations, work together to provide personalized, comprehensive, and effective career navigation assistance, both online and in person, to jobseekers throughout the state.

At its core, New Jersey Career Connections consists of three simple parts: a service model, a network of partners, and a website.

Service Model

The New Jersey Department of Labor and Workforce Development, with input from partners, has developed a career navigation framework, consisting of expert insights and actionable guidance that follows three steps: Plan, Prepare, and Succeed. This model simplifies job search and career planning efforts while ensuring that all services are provided in a common manner.

The New Jersey Career Connections career navigation framework is called The Path to Employment. Each step of the process provides information and activities that jobseekers might utilize throughout their search for employment.

In the Plan stage, jobseekers are encouraged to assess their current skills and interests and explore the job market, as well as apply for funding assistance, if needed, and prepare a personal budget. Next, in the Prepare stage, jobseekers can consider activities such as researching and attending skills trainings, sharpening existing skills, building and enhancing a resume, and learning interview and job search techniques.

Ultimately, in the Succeed stage, jobseekers pursue their chosen job opportunities with confidence, applying the tools and skills they acquired throughout their New Jersey Career Connections experience to realize their career goals and aspirations.

Network of Partners

When fully launched, New Jersey Career Connections will consist of nearly 100 locations where individuals can get career navigation assistance. These locations will include 29 One- Stop Career Centers, 19 community colleges, public libraries throughout the state, and a wide array of community- and faith-based organizations.

The state's 29 One-Stop Career Centers, operated by local Workforce Development Boards in partnerships with the state, will be the foundation for the New Jersey Career Connections network, providing intensive assistance and access to training for jobseekers.

The state's 19 community colleges provide critical education and training to over 400,000 students, helping them make informed career decisions and find careers. New Jersey Career Connections will inform the career navigation services of community colleges.

The Department of Labor and Workforce Development awarded grants to local libraries and library systems across the state to provide career navigation assistance to local residents.

Community- and faith-based organizations throughout New Jersey provide literacy, training, and job-search assistance, often in partnership with the Department of Labor and Workforce Development and local Workforce Development Boards. New Jersey Career Connections will assist in the service delivery of these organizations.

By the winter of 2016, jobseekers will be able to obtain in- person assistance at One-Stop Career Centers, community colleges, and public libraries throughout the state. Via a statewide “train-the-trainer” initiative conducted in the fall of 2016, hundreds of individuals have been trained as “Career

Coaches” to provide New Jersey Career Connections services to jobseekers.

Website

Launched in the summer of 2016, The New Jersey Career Connections website delivers the service model across the network and directly to users, providing interactive tools, resources, and advice. The website is optimized for mobile use and designed to enable a fluid user experience. The website includes a job board, a career navigation module, an interactive directory of training programs, plus information on hundreds of careers and related topics. Among other functions, careerconnections.nj.gov helps jobseekers learn how to network, find employment, and prepare for interviews.

APPENDIX A

STATUS OF STATE EVALUATION ACTIVITIES

New Jersey's local One-Stop Career Centers serve more than 260,000 job-seeking customers each year. In preparation for the state's implementation of the Workforce Innovation and Opportunity Act (WIOA), the New Jersey Department of Labor and Workforce Development (LWD), in partnership with the State Employment and Training Commission (SETC), commissioned the John J. Heldrich Center for Workforce Development at Rutgers University to conduct an in-depth evaluation of One-Stop Career Center operations and services.

The effort included four distinct activities:

- Process evaluation
- Quasi-experimental evaluation of occupational skills training
- Customer satisfaction survey
- Data summary of the characteristics of customers served

The findings of the work demonstrate that occupational training programs help jobseekers earn more and that the Jersey Job Club program is providing meaningful assistance to jobseekers looking to reconnect to the labor market.

The evaluation also indicated areas for improvement:

- One-Stop Career Center operations should be flexible enough to reflect local diversity
- Update/streamline processes leading to education/training as these lead to higher employment and earnings
- Improve access to technology and computer literacy
- Talent Networks hold promise for clients; continue to integrate with One-Stop system
- With resource constraints, ensure that staff leading group efforts share best practices
- Build upon co-location to realize the advantages of coordination and integration
- Address human resource needs, allocations and development
- Continuous improvement of customer service

Continuous improvement of customer service was an area of special concern. The Heldrich Center's customer satisfaction survey of New Jersey jobseekers who were One-Stop Career Center customers generated 1,082 responses—a return rate of 20 percent. A separate survey of employer One-Stop customers generated responses from more than 100 companies statewide. The overall Heldrich Center evaluation study recommended improved training and development of One-Stop Career Center staff and better coordination of employment services among the One-Stops and their partner agencies.

LWD and SETC have and will continue to take steps to strengthen provision of employment and training services:

- The new New Jersey Career Connections website further integrates the job search experience in an easy-to-use online platform.

- The Talent Network effort to establish career paths now includes Talent Development Centers and Targeted Industry Partnerships—all designed to align state workforce development efforts with the hiring needs of New Jersey employers.
- The Department has developed an initial list of Industry-Valued Credentials based on extensive analysis of New Jersey labor market data and detailed feedback from employers statewide.
- A state partnership with the Garden State Employment and Training Association has been established to develop the skills and abilities of state and local workforce staff.

Each area of improvement identified in the Heldrich Center evaluation shall be addressed to the benefit of clients and employers served.

**APPENDIX B
NEW JERSEY WORKFORCE INVESTMENT ACT ACTIVITIES**

New Jersey met or exceeded all WIA Program Year 2015 common measures performance standards negotiated with the U.S. Department of Labor. Since the inception of the Workforce Investment Act, New Jersey has consistently demonstrated its commitment to provide outstanding workforce services to the individuals and employers of the State.

New Jersey became a common measures reporting state beginning in Program Year 2009. Under the common measures waiver, approved by the USDOL/ETA on November 12, 2009 and renewed on December 13, 2012 for PY 2012 through PY2017 as part of New Jersey's Unified State Plan, the State will no longer negotiate and report on the following performance measures under WIA Section 136 (b): WIA adult and dislocated worker credential rates; participant and employer customer satisfaction; older youth measures; and younger youth measures (outcomes for these measures will continue to be collected for informational purposes).

The State will use the three adult and dislocated worker common performance measures to negotiate goals and report outcomes for the WIA adult and dislocated worker programs. The State will use the three youth common performance measures to negotiate goals and report outcomes for the WIA youth program. The following table displays the State's common measures goals and the actual outcomes for the Program Year 2015.

During Program Year 2015, New Jersey continued to utilize the Common Measures Performance Reporting waiver, as provided under WIA. Other waivers available under WIA ended in Program Year 2014. New Jersey did not request any waivers under WIOA, which commenced in Program Year 2015.

Table 1 Common Measures Performance Outcomes

Common Measures	Goal	Actual	% of Goal Achieved	Measure Results
Entered Employment	85.1%	78.2%	91.9%	Met
Retention	86.4%	85.7%	99.2%	Met
6 Month Avg. Earnings	\$13,039	\$14,058	107.8%	Exceeded
Entered Employment	83.3%	81.6%	98.0%	Met
Retention	87.5%	86.2%	98.5%	Met
6 Month Avg. Earnings	\$18,500	\$18,971	102.5%	Exceeded
Youth Placement	68.5%	61.2%	89.3%	Met
Youth Degree Attainment	75.0%	62.0%	82.7%	Met
Literacy & Numeracy	60.0%	53.4%	89.0%	Met

ENROLLMENTS

During PY 2015, 6,914 participants were served in the WIA Adult Program, and 4,973 or 71.9% of the participants, exited the program. The Dislocated Worker Program served 5,906 participants and 3,901, or 66.1% of the enrolled number, exited the program. The Youth program served a total of 4,771 participants, with 3,029, or 63.5% of the participants, exiting during the program year.

Table 2 WIA Staff Assisted Participants Served and Exited by Program Area

Program	Participants Served	Participants Exited	% Exited to Served
Adult	6,914	4,97	71.9%
Dislocated Workers	5,906	3,90	66.1%
Youth	4,771	3,02	63.5%

ENTERED EMPLOYMENT

The Entered Employment performance measure results in

Table 3 reflect standards that the State met.

Table 3 WIA Title 1 Entered Employment Rate Outcomes

Program	Participants Exited & Counted in Measure	Participants Employed in 1st Quarter After Exit	% of Participants Employed in 1st Quarter
Adult	3,57	2,795	78.2%
Dislocated Worker	3,54	2,888	81.6%

WIA YOUTH

The Workforce Investment Act (WIA) Title IB Youth Program is a federally funded program that provides services to economically disadvantaged youth between the ages of 14 and 21. The main objective of the program is to increase the focus on longer-term academic and occupation learning and provide long-term comprehensive service strategies, which will ultimately enrich lives through career advancement and life-long learning. WIA Youth services are available to in-school and out of school youth who fall within one or more of the following categories: (1) deficient in basic literacy skills; (2) school dropout; (3) homeless, runaway or foster child; (4) pregnant or parenting; (5) offender; or (6) individual (including a youth with a disability) who requires additional assistance to complete an educational program or to secure and hold employment. Males age 18 and over are required to register with the Selective Service.

Table 4 Youth Population Served Under WIA Title 1

Total Youth Participants	
Served	4,771

EXPENDITURES AND OBLIGATIONS

During Program Year 2015, the Department expended a total of \$78,998,533 for programs under the Workforce Investment Act. The Adult Program expended \$21,106,251 from all program year resources. The Dislocated Worker Program expended \$23,703,229. For the combined Older and Younger Youth Programs, New Jersey expended \$21,306,373. The total reported Program Year 2015 expenditures for Statewide Activities and Rapid Response was \$12,882,680. These figures for Program Year 2015 do not include total outstanding obligations of

\$13,705,177 (Adults: \$3,015,561; Dislocated Workers: \$4,114,222;

Youth: \$3,435,608; Adult Statewide Activities: \$551,855; Youth Statewide Activities: \$353,751; Dislocated Worker Statewide Activities: \$808,735; and Rapid Response of \$1,425,445). In Program Year 2015 Administration Costs were included in the expenditures of each program area.

COST EFFECTIVENESS – PROGRAM YEAR 2015

Including outstanding obligations, a total of \$76,681,244 was spent under Adult, Dislocated Worker, and Youth Programs resulting in an average cost per participant of \$4,359.12.

Table 1 Program Year 2015 Cost Efficiency Summary

	Total Participants Served	Funds Expended + Outstanding	Cost Per Participant
Total Participants	17,5	\$76,681,244	\$4,359.
Adult	6,9	\$24,121,812	\$3,488.
Dislocated Workers	5,9	\$27,817,451	\$4,710.
Youth	4,7	\$24,741,981	\$5,185.

The WIA Financial Statement and Program Activities Cost Statements follow on the next page.
