4. **Areas Served by the Grant:**

   - **State:** Florida
   - **Counties:** Duval, Nassau
   - **Cities:** Jacksonville; Jacksonville, Neptune and Atlantic Beaches; Yulee; Fernandina Beach; Hilliard

5. **Total Funding Requested:** $3,053,461.21

6. **Project Name:** Information Technology Rapid Reemployment (I-Tech) Program

7. **Summary of Program Activities and List of Credentials to be Awarded:** Following completion of the up-front assessment process, students will enter a work-based training model with earning components of Paid Work Experiences and Paid Internships, integrated high-demand industry certification training, comprehensive supportive services, and articulation to advanced career ladder and lattice occupations. Program participants will benefit from a combination of high quality, modular training; computer-based, interactive industry certification test preparation; funds for certification exams; earned industry certifications; and placement into Paid Work Experiences or Paid Internships. The I-Tech program Case Manager and Advisor will provide a bridge between assessment, learning, and employer placement, ensuring participants follow the most efficient and effective individual career development track. Details on activities are as follows:

   | Accelerated Courses | Supporting skill development in Programming, Computer Network Support |
Modular Training and Database will be “bundled” into meaningful, skill-related groups and offered on-demand (i.e., off traditional semester schedules) to allow students quick access to training material and accelerated schedules of course completion resulting in the following credentials including ASP.NET with C#, Microsoft Technology Associate Certification, HTML5, JAVA, Oracle SQL, A+, and Net Plus Security.

Work-Based Learning Every student will conduct a portion of their training program onsite with one of the Employer Partners. These time-limited work experiences may lead directly to employment, demonstrate a need for further training, or provide a strong foundation for placement with a second employer following completion.

Internal articulation for modular training An Articulation model will be developed for students continuing on to advanced training.

Direct job placement All partners will work together to effectively serve long-term unemployed through the Regional Workforce Board with the ultimate objective of returning them to the workforce as soon as possible.

8. Populations to be Served: 85 percent of participants will be Long-term Unemployed Workers and the remaining 15 percent will be Other Unemployed Workers. Both will include Veterans who will receive priority admission.

9. Targeted H-1B Industry(s)/Occupation(s):

<table>

Washington, DC 20210

RE: Letter of Commitment for SGA/DFA PY 13-07

Dear Mr. Rietzke,

On behalf of the partnership, Florida State College at Jacksonville is pleased to submit our application, Information Technology Rapid Reemployment (I-Tech), to the U.S. Department of Labor for the H-1B Ready to Work Partnership grant program.

As a partnership member, we have each signed this letter of commitment which includes our intent to carry out the goals and activities contained in the project work plan of the I-Tech proposal. Florida State College at Jacksonville, along with employers, community workforce leaders, the Regional Chamber of Commerce’s Jacksonville Information Technology Council and the local Region 8 workforce investment system (CareerSource Northeast Florida), have helped identify the necessary skills and competencies needed by workers in the computer information technology industry and specific occupations such as Computer Programmers, Database Administrators, and Computer User and Network Support Specialists, with career ladder opportunities as Network and Computer Systems Architects and Administrators, Computer Systems Analysts, and Computer and Information Systems Manager within our region. The proposed activities have regional significance and will create promising new strategies for training and support of long-term unemployed workers and other beneficiaries in the high-growth industry of computer information technology.

We will continue to be involved in the project and will provide services including the following:

<table>
<thead>
<tr>
<th>Partnership Entity</th>

Documentation of Commitment to Participate in Evaluation, if selected

Florida State College at Jacksonville is willing to participate in a national evaluation of the Ready to Work program (Section VI.B.4a) initiated by DOL, for the applicant and all partners, including employers or regional industry associations. We understand and agree that the Information Technology Rapid Reemployment (I-Tech) Program is selected, we will:

- Make records on participants, employers and funding available;
- Provide access to program and partner personnel, and participants, and
- Follow evaluation procedures as specified by the evaluator(s) under the direction of DOL ETA and the Chief Evaluation Office, including after the period of operation.

*BASE

Total direct costs excluding capital expenditures (building, individual items of equipment; alterations and renovations), and that portion of each subaward in excess of $25,000.
SECTION II: SPECIAL REMARKS

TREATMENT OF FRINGE BENEFITS:

The fringe benefits are specifically identified to each employee and are charged individually as direct costs. The directly claimed fringe benefits are listed below.

TREATMENT OF PAID ABSENCES

Vacation, holiday, sick leave pay and other paid absences are included in salaries and wages and are claimed on grants, contracts and other agreements as part of the normal cost for salaries and wages. Separate claims are not made for the cost of these paid absences.

OFF-SITE DEFINITION: For all activities performed in facilities not owned by organization and to which rent is directly allocated to the project(s), the off-site rate will apply. Grants or contracts will not be subject to more than one indirect cost rate. If more than 50% of a project is performed off-site, the off-site rate will apply to the entire project.

Equipment Definition - Equipment means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit.
ORGANIZATION: Florida State College at Jacksonville

AGREEMENT DATE: 10/18/2013

SECTION III: GENERAL

A. LIMITATIONS:
The rates in this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available. Acceptance of the rates is subject to the following conditions: (1) Only costs incurred by the organization were included in its facilities and administrative cost pools as finally accepted; such costs are legal obligations of the organization and are allowable under the governing cost principles; (2) The same costs that have been treated as facilities and administrative costs are not claimed as direct costs; (3) Similar types of costs have been accorded consistent accounting treatment; and (4) The information provided by the organization which was used to establish the rates is not later found to be materially incomplete or inaccurate by the Federal Government. In such situations the rate(s) would be subject to renegotiation at the discretion of the Federal Government.

B. ACCOUNTING CHANGES:
This Agreement is based on the accounting system purported by the organization to be in effect during the Agreement period. Changes to the method of accounting for costs which affect the amount of reimbursement resulting from the use of this Agreement require prior approval of the authorized representative of the cognizant agency. Such changes include, but are not limited to, changes in the charging of a particular type of cost from facilities and administrative to direct. Failure to obtain approval may result in costs disallowance.

C. FIXED RATES:
If a fixed rate is in this Agreement, it is based on an estimate of the costs for the period covered by the rate. When the actual costs for this period are determined, an adjustment will be made to a rate of a future year(s) to compensate for the difference between the costs used to establish the fixed rate and actual costs.

D. USE BY OTHER FEDERAL AGENCIES:
The rates in this Agreement were approved in accordance with the authority in Office of Management and Budget Circular A-21, and should be applied to grants, contracts and other agreements covered by this Circular, subject to any limitations in A above. The organization may provide copies of the Agreement to other Federal Agencies to give them early notification of the Agreement.

E. OTHER:
If any Federal contract, grant or other agreement is reimbursing facilities and administrative costs by a means other than the approved rate(s) in this Agreement, the organization should (1) credit such costs to the affected programs, and (2) apply the approved rate(s) to the appropriate base to identify the proper amount of facilities and administrative costs allocable to these programs.
