

**Louisiana Labor Market Information Program  
Annual Performance Results  
Program Year 2015-2016  
Workforce Information Grants to States (WIGS)**

**1. WORKFORCE INFORMATION DATABASE (WIDb)**

**Accomplishments compared to Plan.**

**Outcome(s) and system impacts(s):**

- **Labor market Information (LMI) was provided to customers in a user-friendly format on the LWC website. LMI users were able to view and download the latest information using NAICS industry codes and SOC occupational code structures.**

**Milestones:**

- **All LMI statistical databases were updated in a timely manner in the Louisiana Occupational Information System (LOIS) delivery system. The LMI Unit continued collecting and processing data on training providers, program offerings, and performance outcomes. Performance measures were in accordance with the requirements of the Workforce Investment Act (WIA) followed by the Workforce Innovation and Opportunity Act (WIOA).**
- **The analyzer portion uses VOS 12.05, while the current WID uses version 2.6.**
- **The Occupational Code Dictionary uses 2010 O\*Net 17.**
- **Automatic Email Notification was sent out to 57,104 email addresses during this program year.**
- **Monthly employment and labor force data were updated in the LOIS database in a timely manner.**
- **Unemployment Insurance (UI) claimant's data was updated monthly to reflect unemployment insurance claims filed by occupation until data for the week ending 11-14-15 due to updates made to the LWC's unemployment information processing system. Therefore only statewide data is available on and after 11-14-15.**
- **Data are available at the State level as well as individual parishes and multiple combinations of parish geographies until data for the week ending 11-14-15 due to updates made to the LWC's unemployment information processing system. Therefore only statewide data is available on and after 11-14-15.**

- *My life My way*, a new webpage that estimates living costs so job seekers and students can find the right career and salary based on the lifestyle they want to live.

**Cost:**

The cost of updating and maintaining the Workforce Information Database was \$92,342. There are no leveraged funds identified with this core product. The state's procurement process was used for any equipment or contracts.

## 2. INDUSTRY AND OCCUPATIONAL EMPLOYMENT PROJECTIONS

### Accomplishments compared to Plan.

#### Outcome(s) and system impacts(s):

- The short-term to 2017 and long-term to 2024 industry projections data were completed and met the extension granted for this ETA deliverable.
- The industry projections to 2024 data went through revisions at the request of the state WIC. These revisions were made available to the public in July 20, 2016 on the LMI projections website.
- Through LMI presence at the state's WIC meeting, changes requested by the WIC to attract students, employers, and academics to 2017 and 2024 occupational projections data were developed and displayed on the LMI website to show:
  - An entry wage of the lowest 10 percent of the wages for each occupation.
  - The top earning capacity of 90 percent for each occupation.
  - Minimum education requirements were sorted by education for the state and each of the eight regional labor market areas.
  - Revisions the BLS minimum education requirements were made based on employer feedback.
- The Louisiana Workforce Commission for the fourth year published star ratings for all occupations that are based on long-term and short-term employment projections, median wages for occupations and job openings posted by employers in Louisiana. These were revised and approved for publication by the state Workforce Investment Council.

#### Milestones:

- The 2017 short-term and 2024 long-term Industry and Occupational projections were presented and approved by the state Occupational Forecasting Conference and the state Workforce Investment Council in

their July 19, 2016 meeting. Results are posted on the LWC's Labor Market Information website on July 20, 2016.

**Cost:**

The estimated cost of updating and maintaining the Occupational Employment & Industry Projections was \$120,948. Funds of approximately \$106,000 were used to pay a contractual arrangement with LSU to contact over 150 driver firms across the state and to produce and present three reports to the state WIC on their findings for the 2024 industry and occupational projections outcomes, as it is not a core product of the WID grant. The state's procurement process was used for any equipment or contracts.

### 3. ANNUAL ECONOMIC ANALYSIS and OTHER REPORTS

**Accomplishments compared to Plan.**

**Outcome(s) and system impacts(s):**

- The *Louisiana Workforce Information Review 2015*, a compendium of all labor market data series from 2014 through 2015, went on the LMI website and printed copies of the publication were sent to the Governor's Office. The report provides an in-depth analysis of Louisiana's diverse workforce. It features a time series analysis of the civilian labor force, employment, unemployment, and unemployment rates; covered and nonfarm industry employment; and occupational employment statistics.

Regional sector profiles were developed for eight regions and the top four performing industry sectors based on current employment, forecast demand and total annual wages.

**Milestones:**

- The *Louisiana Workforce Information Review 2015* was sent to the Governor's Office in printed form.
- Monthly economic analysis briefings are held with the LWC executive staff before the monthly release of employment and unemployment data. The Public Affairs Director in turn provides a briefing to the Governor and his staff.

**Cost:**

The cost of producing the annual *Louisiana Workforce Information Review 2015* and other work on this deliverable was estimated at \$107,398. The state's procurement process was used for any development of this core product and no funds from any other source were used to leverage the cost of this activity.

#### 4. CUSTOMER CONSULTATIONS

##### Accomplishments compared to Plan.

##### Outcome(s) and system impacts(s):

- All Workforce Development Board (WDB) Director's addresses are a part of LMI's direct email notification list anytime a press release on available data is released. They have also been encouraged to sign up in the automatic email notification system.
- The Governors Workforce Investment Council appointees were presented with the revised industry and occupational forecast.
- Input on the 2024 Industry forecast was requested from all of the State WIC members.
- One LMI member attended the PMP Training in Portland and the EDS training.

##### Milestones:

- During the grant period, Research and Statistics Director was a member of the quarterly "Trends Panel" with Baton Rouge regional industry leaders sponsored by the Baton Rouge Chamber of Commerce.
- During the grant period, the R&S Director was a member of the NASWA-OMI Committee, which is helpful in developing strategies to meet Local Workforce Development Area (LWDA) needs and garner resources from other states' best practices.
- Assisted Workforce Development in the preparation of the WIOA Combined State Plan for the Period of July 1, 2016, through June 30, 2020. Developed economic analysis and workforce analysis.
- Assisted LWDA's in the preparation of the WIOA Regional Plans through development of the economic and workforce analysis
- Conducted LMI training for the Baton Rouge WDB staff.
- Conducted breakout session at two day Workforce Symposium that convened WIOA required partners.
- Louisiana is a partner state providing quarterly wage record and covered employment files to the US Census office as part of the LEHD program.

##### Cost:

The estimated cost of conducting these activities and providing economic analysis was \$88,327. The state's procurement process was used for contracts and equipment.

## 5. ACTIVITIES UNDERTAKEN TO MEET CUSTOMER NEEDS

### Accomplishments compared to Plan.

#### Outcome(s) and system impacts(s):

- The strategic plan of the Office of Information Services is to provide timely and accurate Labor Market Information to all citizens and develop a longitudinal database system to link education attainment to workforce outcomes.

#### The LMI unit, continued to improve tools developed in prior years.

- *Louisiana Star Jobs* was updated to provide real time current job listings. A new display was added that allow the customer to view the highlights of the job before entering directly into the State's job bank.
  - *My Life My Way* continues to be promoted to assist individuals in making career decisions that match the lifestyles they like to enjoy and shows the occupations that will help them achieve their lifestyle needs. Lifestyle choices and costs differ for each region of the state. In June of 2016 *My Life My Way* was demonstrated at Louisiana Center for Women in Government and Business - Louisiana Girls Leadership Academy conference.
- Outcome(s) and system impact(s)
    - Improve and maintain a publicly accessible state workforce information delivery system that facilitates customer access to information within the state and across state boundaries 24/7.
    - The LWC's Labor Market Information (LMI) unit maintains two websites to provide users with the most up to date data options. The WID/LOIS database is maintained as well as a separate LMI website to include data options not available in the current database structure hosted by Geographic Solutions for LOIS.
    - The Star Rating system incorporates the new 2024 occupational projections with educational requirement data and a star rating system for the most promising occupations in demand based on long-term and short-term projections, wages and number of job orders.
    - *My Life My Way* incorporates the latest information on cost of living in each of the regions of Louisiana. It also provides information on high demand high wage occupations that support a selected lifestyle in each of the regions of the state.

**Milestones:**

The following list of products and services were maintained, enhanced, or added during the 2015-16 program year. Data available during this program year are in electronic formats (pdf or excel) and can be found in the LOIS/WID and also in the LWC website as follows:

<b>Program Year 2015-2016 Workforce Information Grants to States ETA Table of Louisiana Labor Market Information Activities</b>			
<p>Note: The only direct web link for the LOIS (our WIDb) website is to the front page of LOIS and then drill downs are used to get to the specific data set.
