Part I: Summary Comparisons Across Programs ............................................................................ 7
  Table I-1 Number of Program Participants (including Exiters) and Reportable Individuals from
  July 2018 to June 2019, by State and Program ............................................................................. 8
  Table I-2 Trend in the Number of Exiters, by Program of Participation and Reporting Period .......... 10
  Table I-3 Number of Exiters from April 2018 to March 2019, by State and Program of
  Participation .................................................................................................................................... 11
  Table I-4 Number of State Exiters from April 2018 to March 2019, by Program and Selected
  Characteristics .................................................................................................................................. 13
  Table I-5 Trends in the Number of WIOA Adult Participants, by State and Reporting Period ......... 15
  Table I-6 Trends in the Number of WIOA Dislocated Worker Participants from State and Local
  Programs, by State and Reporting Period ......................................................................................... 17
  Table I-7 Trends in the Number of Dislocated Worker Grant Participants, by State, Reporting
  Period, and DWG Type .................................................................................................................... 19
  Table I-8 Trends in the Number of WIOA Youth Participants, by State and Reporting Period ........ 21
  Table I-9 Trends in the Number of Wagner-Peyser Participants, by State and Reporting Period ........ 23
  Table I-10 Trends in the Number of WIOA Adult Exiters, by State and Reporting Period ............. 25
  Table I-11 Trends in the Number of WIOA Dislocated Worker Exiters from State and Local
  Programs, by State and Reporting Period ......................................................................................... 27
  Table I-12 Trends in the Number of Dislocated Worker Grant Exiters, by State, Reporting Period,
  and DWG Type ................................................................................................................................ 29
  Table I-13 Trends in the Number of WIOA Youth Exiters, by State and Reporting Period ............ 31
  Table I-14 Trends in the Number of Wagner-Peyser Exiters, by State and Reporting Period .......... 33

Part II: Adult Program .................................................................................................................... 35
  Table II-1 Trends in the Characteristics of Adult Exiters, by Reporting Period ................................. 36
  Table II-2 Trends in the Number of Adult Exiters, by Reporting Period ........................................... 38
  Table II-3 Characteristics of Adults Who Exited from April 2018 to March 2019, by Age at
  Program Entry .................................................................................................................................. 40
  Table II-4 Characteristics of Adults Who Exited from April 2018 to March 2019, by Ethnicity and
  Race .................................................................................................................................................. 42
Table II-5 Characteristics of Adults Who Exited from April 2018 to March 2019, by Gender, Employment Status, and Disability Status
.................................................................44

Table II-6 Characteristics of Adults Who Exited from April 2018 to March 2019, by Other Employment Characteristics
.................................................................................................................46

Table II-7 Characteristics of Adults Who Exited from April 2018 to March 2019, by Adult Program Priority Groups
.................................................................................................................48

Table II-8 Characteristics of Adults Who Exited from April 2018 to March 2019, by Highest Educational Level
.................................................................................................................50

Table II-9 Characteristics of Adults Who Exited from April 2018 to March 2019, by Selected Other Characteristics
.................................................................................................................52

Table VI-22 Trends in the Outcomes of Wagner-Peyser Exiters, by Performance Period .................. 411
Guide to the Reader

This Data Book provides information on the characteristics, services, and outcomes of persons served by the Workforce Innovation and Opportunity Act (WIOA) Adult, Dislocated Worker, and Youth programs, and the Wagner-Peyser Act program in South Dakota. General notes that apply to most of the tables in the Data Book appear in this section. More detailed information is provided in the appendices. Appendix A, Notes to Tables, presents important information about how specific rows or columns are defined. Appendix B, Cross-reference to PIRL Elements, identifies which PIRL elements were used in the computation of the tables’ row entries. Finally, Appendix C provides a list of acronyms used throughout the report.

What is Included in This Data Book

The Data Book draws primarily from the Participant Individual Record Layout (PIRL) data that states submitted to the U.S. Department of Labor (DOL) Employment and Training Administration (ETA) to meet their program year (PY) 2018 quarter 4 (Q4) reporting requirements. The report presents detailed tabulations for persons served by the WIOA Adult program (PIRL element 903); the formula-funded Dislocated Worker program (PIRL 904), including rapid response additional assistance (PIRL 909); the Youth program (PIRL 905); Dislocated Worker Grants (DWGs, PIRL 932); and Wagner-Peyser (PIRL 918) program. Most tables present results for exiters, defined as those participating in the above programs with a valid exit date (PIRL 901); however, some tabulations cover participants, who are those with a valid date of program entry (PIRL 900) regardless of whether they have an exit date. Tabulations are restricted to those with an entry or exit date within the date range covered by the table or column heading.

The Data Book also presents counts of reportable individuals (identified as those with code 4 in PIRL 903, 904, 905 or code 2 in PIRL 918 or 932). As described in TEGL 10-16 Change 1, reportable individuals are those who demonstrated an intent to use program services or accessed self-services or information-only services, but who have not received any service that would qualify them as a participant. They have neither a date of participation nor a date of exit.

The PY 2018 Q4 PIRL includes information about individuals who participated in DOL workforce programs at any time during PY 2018, which runs from July 1, 2018, to June 30, 2019, including those who may have begun participating before the start of the program year. For historical comparison, some tables present data for persons who participated and exited prior to July 1, 2018. The PY 2018 Q4 PIRL also includes information about individuals who exited January 1, 2017 to June 30, 2018, and previous PIRL quarterly submissions include information about individuals who exited July 1, 2016 to December 31, 2016. Information about individuals who exited prior to July 1, 2016 are drawn from the Workforce Investment Act Standardized Record Data (WIASRD), which preceded the introduction of the PIRL.

---

1 Detailed information about the PIRL, including the specifications that states were to follow when reporting, can be found at https://www.doleta.gov/performance/reporting/.

2 Reporting specifications for the WIASRD can be found in Training and Employment Guidance Letter (TEGL) 4-13.
A Word About Missing Data

States first reported using the PIRL with the first quarter of PY 2016. Their first quarterly PIRL submission included information on all those who participated anytime during the first quarter of PY 2016; each subsequent quarterly submission provided additional information about the services received by those who continued as participants from the prior quarter, added information for new participants, and noted which participants had exited as of the preceding quarter.3

Some Data Book tables present historical trends using WIASRD data. The transition from the WIASRD to the PIRL has implications for the coverage of the data available from these two sources.

- The PIRL includes twelve quarters of participants and eleven quarters of exiters. The PIRL data includes those who participated anytime from July 1, 2016, to June 30, 2019, and those who exited anytime from July 1, 2016 to March 31, 2019.

- Historical trends data. The states’ last WIASRD submission was a ‘closeout’ file that covered all who exited from WIOA programs anytime between January 1, 2015 and June 30, 2016.4 This report utilizes the WIASRD ‘closeout’ file and prior WIASRD data.

- Some items new with the PIRL have substantial missing data. The reporting specifications for the characteristics of Adult, Dislocated Worker, and Youth program participants are largely the same in the PIRL as they were in the WIASRD. However, some reporting items were newly introduced with the PIRL. Some participants included in the PIRL were enrolled prior to July 1, 2016, when the PIRL specifications took effect, and, therefore, information on characteristics newly introduced with the PIRL may not have been collected from them at intake and are not available from the WIASRD. A few more items were added to the PIRL for the first time effective PY 2018 quarter 1 and, therefore, may not be available for those who entered the program before July 1, 2018. For these reasons, some characteristics could have substantial missing data. (Note that statistics in the Data Book are calculated based only on those with non-missing data, except where noted).

- Performance indicators not available from WIASRD.5 Measurable Skill Gains and Credential Rate, two of the WIOA performance indicators,6 are measured using items not available from the WIASRD. Second, third, and fourth quarter employment and wages are not available for all youth from the WIASRD, therefore trends before PY 2017 are not presented in Part V.

---

3 Exit status is not known until 90 days after the last service was received. Therefore, exit status cannot be determined until the quarter after participation ended. See TEGL 10-16 Change 1 for the definition of a participant and the determination of the exit date.

4 ETA issued TEGL 5-17 in January 2018, requiring states to submit separate WIASRD files with the missing performance information for those who exited prior to July 1, 2016. These submissions were due by April 2018 and are incorporated into this Data Book.

5 For a description of the WIOA performance indicators, see TEGL 10-16 Change 1:

6 An additional WIOA performance indicator is Effectiveness in Serving Employers and this is generally not measured using the PIRL.
• **Historical data miss Wagner-Peyser participants.** The WIASRD included Wagner-Peyser participants only if they were co-enrolled in WIOA programs, therefore trends before PY 2017 are not presented in Part VI.

• **Guam is missing in trends tables before PY 2015.** Guam did not submit WIASRD records before July 1, 2015.

• **Northern Mariana Islands. Northern Mariana Islands is included for the first time but includes only those who exited on or after January 1, 2017.**

• **Palau. Palau is included for the first time but includes only those who exited on or after July 1, 2016.**

• **Puerto Rico is missing from this report. Puerto Rico has not yet submitted PIRL records.**

**Overview of the Tables**

The Data Book contains five groups of tables.

• Part I contains summary tables for WIOA Adult, Dislocated Worker, and Youth programs, DWG projects, and Wagner-Peyser. It provides counts of WIOA participants and exiters, Wagner-Peyser participants and exiters, and reportable individuals, by state; shows trends over time in the number of WIOA exiters; shows counts of the numbers served in WIOA and Wagner-Peyser with certain characteristics; and shows counts of exiters who received incumbent worker training.  

• Part II contains tables for the Adult program, which serves individuals ages 18 and older. Priority for individualized career services and training services in the WIOA Adult program must be given to recipients of cash public assistance, other low-income individuals, and individuals who are basic skills deficient, including English-language learners (see the WIOA Final Rule 20 CFR Part 680.600 and TEGL 19-16).

• Part III contains tables for the Dislocated Worker program (including rapid response additional assistance recipients) and for DWGs. Dislocated workers are generally experienced workers who have been laid off (or received notice of termination) due to a permanent closure or substantial layoff (see the WIOA Final Rule 20 CFR Part 680.130). For the first time, the tables include information only on individuals served by the formula-funded Title I Dislocated Worker program and excludes those served only by DWGs.

• Part IV contains tables for those who received services under WIOA Title I-D, Section 170, National Dislocated Worker Grants (DWGs). Unlike other parts of this report, this does not present trends but rather presents a comparison of nation to state by DWG type (disaster or economic recovery). Many DWGs are coenrolled in the Dislocated Worker program and are, therefore, also included in Part III tables.

---

7 This Data Book is based on an extract of the PIRL that we received from ETA that includes reportable individuals; WIOA Adult, Dislocated Worker, and Youth participants; and Wagner-Peyser participants. Therefore, tabulations for incumbent workers include only incumbent workers who are also in one of the above groups.
• Part V contains tables for the Youth program, which serves individuals ages 14 to 24. Both in-school youth and out-of-school youth are eligible for the youth program, but at least 75 percent of youth program funds must be spent on the latter group. Eligibility criteria for the WIOA youth program are described in TEGL 8-15.

• Part VI contains tables for the Wagner-Peyser program, which provides employment-related labor exchange services. Services include job search assistance, job referral, placement assistance, and other services for job seekers. Services can be either self-service or staff-assisted. There are no eligibility criteria for these employment service. Wagner-Peyser also provides recruitment services to employers (not included in this Data Book).

Parts II, III, IV, V, and VI all follow a similar structure. The first set of tables within each part shows the characteristics of exiters, the next set shows the services they received, and the final set shows outcomes obtained. Most outcomes are measured after individuals exit from the program, with the exception of Measurable Skills Gains which are measured for participants.

Data drawn from the PIRL are reported only for those who meet the definition of a participant or reportable individual, as defined in TEGL 10-16 Change 1. Historical data drawn from the WIASRD are for those who received staff-assisted core, intensive, or training services; that is, WIASRD tabulations do not include those who received only self-services or informational services. Additionally, some characteristics of participants drawn from the WIASRD are only available for those who received intensive or training services, and not those who received only staff-assisted core services; therefore, percentages for these characteristics are primarily based only on individuals who received intensive or training services. See the WIASRD specifications referred to previously for details about which items were required for which subsets of participants.

None of the tables in this Data Book includes information on some other programs whose data are to be included in the PIRL. These include participants of the Trade Adjustment Assistance program; the WIOA Indian and Native American Program and National Farmworker Jobs Program; the Jobs for Veterans’ State Grants; and discretionary grant programs.

Summary of Table Notation and Units of Measurement

The following notation is used:

• “—” is used to denote data that is not available.

• “0.0” is used to denote percentages that are less than 0.05%.

• “*” is used to denote values based on fewer than 9 participants or exiters.

The numbers appearing in the tables are either raw counts (e.g., the number of exiters), percentages (e.g., the percentage who are female), or averages (e.g., average preprogram quarterly earnings).

• Raw counts represent the number of exiters identified by the combination of the row and column headings. Individuals with missing data on a row or column heading are not included in the count.

• Percentages generally represent the percentage identified by the row heading among all of those identified by the column heading—that is, they are column percentages. Some tables,
however, present row percentages, the percentage identified by the column heading among those identified by the row heading. These cases are specified in Appendix A: Notes to Tables. So that the reader can see the size of the universe on which the percentages are based, tables that show column percentages generally show the number of exiters in the first row, and tables that show row percentages generally show the number of exiters in the first column. Individuals with missing data on either the row or column heading are excluded when calculating percentages. In addition, all WIOA Primary Indicators of Performance are calculated after excluding individuals who exited the program by virtue of being incarcerated or hospitalized, were receiving medical treatment expected to last longer than 90 days that precluded them from continuing services or entering employment, were deceased, were reservists called to active duty for at least 90 days, or (for the Youth program) moved from the local workforce area by virtue of being in the foster care system (see TEGL 10-16 Change 1 for more detail about these exclusions).

- **Averages** are calculated for selected items that are measured on a continuous scale (e.g., preprogram quarterly earnings) and are computed after excluding missing data and zeros.

**Quality of the Underlying Data**

The PIRL reporting system was introduced with PY 2016. Some revisions and additions were effective with the PY 2018 Q1 data submissions. The PY 2018 Q4 data used for this Data Book represent the twelfth quarter of reporting. States varied in how long it took to fully implement the different elements of the PIRL. Thus, the quality and completeness of the data vary among states. Moreover, data on characteristics newly introduced with the PIRL are often not available for participants who enrolled before the PIRL took effect and subsequent additions to the PIRL are often not available for participants who enrolled before the additions went into effect.

The data used to prepare the Data Book underwent an extensive data review. As a result of this review, some data for a few states were recoded or set to missing, because they appeared to be incorrect. Data that were set to missing are excluded from the calculations of percentages and averages in this Data Book, as discussed above. Consequently, state results reported in the Data Book may differ from states’ own computations from their data.
Part I: Summary Comparisons Across Programs
### Table I-1
**Number of Program Participants (including Exiters) and Reportable Individuals from July 2018 to June 2019, by State and Program**

(Derived from PY 2018 Q4 PIRL)

---

\(^1\) Measured for a four-quarter exit cohort ending with those who exited four quarters prior to the end of the performance quarter.

\(^2\) Measured for a four-quarter exit cohort ending with those who exited six quarters prior to the end of the performance quarter.

\(^3\) Measured for those who participated during this program year.

\(^4\) Measured for a four-quarter exit cohort ending with those who exited three quarters prior to the end of the performance quarter.

\(^5\) Measured for a four-quarter exit cohort ending with those who exited five quarters prior to the end of the performance quarter.

### Age Categories
- 14 to 15: 0.6 Female, 1.2 Male, 0 Employed, 1.2 Not Employed, 1.7 Disability
- 16 to 17: 9.9 Female, 12.0 Male, 6.3 Employed, 12.3 Not Employed, 10.9 Disability
- 18: 15.7 Female, 22.8 Male, 24.1 Employed, 17.7 Not Employed, 25.2 Disability
- 19 to 21: 44.8 Female, 40.7 Male, 48.1 Employed, 41.2 Not Employed, 43.7 Disability
- 22 to 24: 29.1 Female, 23.4 Male, 21.5 Employed, 27.7 Not Employed, 18.5 Disability

### Gender
- Females: 100.0, 0.0, 49.4, 51.2, 40.3
- Males: 0.0, 100.0, 50.6, 48.8, 59.7

### Race and Ethnicity
- Hispanics/Latinos: 6.5 Female, 7.2 Male, 9.0, 6.2, 3.4
- American Indians/Alaska Natives: 33.1 Female, 22.5 Male, 24.3, 29.0, 14.9
- Asians: 6.6 Female, 5.0 Male, 4.1, 6.3, 1.8
- Blacks or African Americans: 9.6 Female, 15.0 Male, 6.8, 13.9, 7.9
- Native Hawaiians/Pacific Islanders: 0.6 Female, 0.6 Male, 1.4, 0.4, 0.0
- Whites: 57.8 Female, 63.8 Male, 71.6, 57.5, 81.6
- More than one race: 7.8 Female, 6.9 Male, 8.1, 7.1, 6.1

### Employment Status
- Employed: 22.7, 24.0, 100.0, 0.0, 23.5
- Not employed or with layoff notice: 77.3, 76.0, 0.0, 100.0, 76.5

### Veteran Status
- Veterans: 0.0, 0.0, 0.0, 0.0, 0.0
- Disabled veterans: 0.0, 0.0, 0.0, 0.0, 0.0
- Other eligible persons: 0.0, 0.0, 0.0, 0.0, 0.0
- Active duty military spouses: --, --, --, --, --

### Unemployment Compensation Status
- Claimants referred by RESEA: 0.6, 0.6, 0.0, 0.8, 0.8
- Claimants referred by WPRS: 0.0, 0.0, 0.0, 0.0, 0.0
- Claimants not referred: 1.2, 1.2, 0.0, 1.5, 2.5
- Claimants exempt: 0.0, 0.0, 0.0, 0.0, 0.0
- Exhaustees: 0.0, 0.0, 0.0, 0.0, 0.0
- Neither claimants nor exhausters: 98.3, 98.2, 100.0, 97.7, 96.6

² Based on those who exited from April 2017 to March 2018.
Appendix A

This appendix describes definitional issues and the computation of rows or column entries that may not be straightforward. It should be used in conjunction with Appendix B, which describes the PIRL elements from which table row entries are drawn.

Part I: Summary Comparisons Across Programs

<table>
<thead>
<tr>
<th>Table</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>I-1</td>
<td>This table shows, by state, the number of reportable individuals; WIOA participants, by program of participation; and Wagner-Peyser participants. Participants include those who participated at any time during the four quarters of the program year, regardless of whether they had exited.</td>
</tr>
<tr>
<td>I-2</td>
<td>This table shows the trend in the number of WIA/WIOA exiters, by program of participation. Sums of counts may not equal the totals, because exiters may be in more than one program (for example, both a local and statewide program). Columns denoting each program year tabulate results for the most recent four quarters of exiters known at the end of the program year reporting period. Because there is one-quarter lag before a person’s exit date is known, the exit cohorts for these columns represent those who exited from April 1 of each program year to March 31 of the following year.</td>
</tr>
<tr>
<td>I-3</td>
<td>This table shows counts of those who exited during the date range shown, by state and program of participation. The All WIOA column includes those who participated in one or more of the Adult, Dislocated Worker (including DWG), or Youth programs; the sum of counts across WIOA programs exceeds the All WIOA total, because some exiters were coenrolled in more than one WIOA program. Note that Wagner-Peyser exiters could also have been enrolled in WIOA.</td>
</tr>
<tr>
<td>I-4</td>
<td>This table shows, for the date range shown, the number of exiters with selected characteristics by program of participation, and shows the number with missing data on selected elements. Both statewide and local programs are included; DWG programs are included in the Dislocated Worker and the All WIOA columns. Within any row, the sum of counts across WIOA programs may exceed the All WIOA total, because some exiters were coenrolled in more than one WIOA program. Note that Wagner-Peyser exiters could also have been enrolled in WIOA. Long-term unemployed and exhausting TANF are not required reporting elements for youth; ex-offenders is not a required reporting element for Wagner-Peyser. Therefore, these cells are not shown. See notes to Tables II-1 &amp; II-3 to II-12 for a discussion of the measurement of selected characteristics.</td>
</tr>
<tr>
<td>I-5 to I-9</td>
<td>These tables show trends over time in the number of exiters by state. The tables, in turn, show trends in the number of exiters for the Adult program (Table I-5), the Dislocated Worker state and local (formula-funded) program (Table I-6), Dislocated Worker Grant (DWG) projects (Table I-7), the Youth program (Table I-8), and Wagner-Peyser (Table I-9). Column headings are defined as for Table I-2. Data for Guam was not available for years prior to PY 2016 and is therefore not shown.</td>
</tr>
<tr>
<td>I-10</td>
<td>Not tabulated at the state level.</td>
</tr>
</tbody>
</table>
Part II: Adult Program

These tables present information for those in the Adult Program (identified from PIRL 903) and show the characteristics and services of exiters, and the outcomes of exiters or participants, as applicable.

| Table II-1 & II-2 | These tables show trends over time in the percentage (Table II-1) or raw counts (Table II-2) of exiters with various characteristics. Columns denoting each program year tabulate results for the most recent four quarters of exiters known at the end of the program year reporting report. Because there is one-quarter lag before a person’s exit date is known, the exit cohorts for these columns represent those who exited from April 1 of each program year to March 31 of the following year. In data drawn from the WIASRD, some characteristics are only reported for those who received intensive or training services, and not those who received only staff-assisted core services (according to the WIASRD, the latter group made up approximately 60 percent of all adult exiters who received staff-assisted services). These characteristics include whether a participant was a public assistance recipient, homeless, an ex-offender, or a single parent. For this reason as well, the trends in percentages (Table II-1) for exiters with these characteristics can be misleading; counts (Table II-2) for years prior to the introduction of the PIRL are not shown for these elements. Other characteristics reported in the PIRL (long-term unemployed, exhausting TANF within two years, basic skills deficient, facing cultural barriers, and displaced homemaker) were not required reporting elements for Adult program participants in the WIASRD, and Adult program priority status and other public assistance receipt were defined differently; for these elements, therefore, prior years’ data is not shown. Finally, note that Table II-2 presents counts of those with non-missing data; there is some missing data on most items, so counts are to some degree under-estimates (see Table I-4 for selected information on the extent of missing data, and notes to Table II-1 & Tables II-3 to II-12, below, for additional information on the definition of exiter characteristics). |
| Table II-1 & II-3 to II-12 | These tables show the percentage of exiters identified by the column heading with various characteristics. All numbers are percentages except the number of exiters (shown in the first three rows) and average preprogram earnings. Age is calculated as the difference between the year of program entry and the year of birth. If the month/day in the year of program entry is before the month/day of the year of birth, then one year is subtracted from the difference. The category of “Employment Status” that is labelled “Not employed or with layoff notice” includes those employed but with a layoff notice, not in the labor force, or unemployed (PIRL 400 codes 0, 2, or 3). Highest educational level is coded based on PIRL 408. Most row entries are straightforward representations of the PIRL element, but note that code 0=No educational level; codes 2,3=Secondary school equivalency; and codes 7,8=Bachelor’s Degree or higher. Preprogram quarterly earnings represents the average (mean) earnings in the second quarter (PIRL 1700) and third quarter (PIRL 1701) prior to the quarter of program entry (based on PIRL 900). Those with zero earnings in one quarter but not the other are included in the average, and their average is calculated including the zero value; however, an exiter with zero earnings in both quarters is excluded from the average. In the tables showing trends over time, averages are shown in nominal dollars (that is, without an adjustment for inflation). The percentage who are English language learners is calculated after excluding exiters in Puerto Rico. |
Appendix A

In calculating percentages, exeters with missing data on either the row or column heading are generally excluded. An exception is for ethnicity and race. The ethnicity and various race categories are separate data elements in the PIRL, coded 1 for yes, 0 for no, and 9 for did not self-identify. A large number of records are coded as blank or code 9 on one or more of these variables but not all of them (see Table I-4 in the Data Book). For this reason, if a person was coded as being of a certain race, but had missing data on ethnicity or one or more of the remaining race categories (that is, neither a 1 nor a 0), the missing value was recoded to 0. The race categories are not mutually exclusive with each other or with Hispanic ethnicity; a person could be identified as belonging to more than one race, and may also be identified by each of their race groups and as of Hispanic ethnicity.

Categories of public assistance recipients are also not mutually exclusive, because an exeter could receive benefits from more than one program. Note that SNAP participation was not a separate required item in the WIASRD, but SNAP participants were to be coded as Other public assistance recipients. Therefore, many carry-over participants who were SNAP participants could be shown as “Other” public assistance recipients rather than SNAP participants. For this reason, the percentage who are coded as SNAP participants in the PIRL is likely understated, and the percentage who are Other public assistance recipients is likely overstated. Finally, note that the row for SSI or SSDI includes Ticket Holders (see PIRL 602).

For the definition of the row Any Adult Program priority group (under Other Characteristics), see the note to Table II-7.

Table II-4

<table>
<thead>
<tr>
<th>Column Heading</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exeters coded as “Not Hispanic” are those coded as 0 on PIRL 210 or those missing or coded as 9 on this element but who are of at least one race category. Exeters coded as “White Only” or “Black Only” are coded as 1 on PIRL 215 and 213, respectively, and are not also of any other race; however, they may be of Hispanic ethnicity. Those included in the “Other Race” column could be of any race other than white or black, or could be white or black in combination with any other race.</td>
</tr>
</tbody>
</table>

Table II-5

<table>
<thead>
<tr>
<th>Column Heading</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exeters coded as “Not Employed” column includes those employed but with a notice of layoff, not in the labor force, and unemployed.</td>
</tr>
</tbody>
</table>

Table II-6

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Exeters referred or not by RESEA or WPRS, and claimants exempt from work search.</td>
</tr>
</tbody>
</table>

Table II-7

<table>
<thead>
<tr>
<th>Column Heading</th>
</tr>
</thead>
<tbody>
<tr>
<td>The column headings are the Adult program’s priority groups. As identified in TEGL 19-16, these are veterans, low income individuals, those receiving public assistance, and those who are basic skills deficient. As defined in WIOA Sec. 3, public assistance means “...Federal, State, or local government cash payments for which eligibility is determined by a needs or income test” (emphasis added). The column heading Receives TANF, therefore, denotes those who received assistance through TANF (PIRL 600), and excludes those who received only SSI/SSDI (PIRL 602), SNAP benefits (PIRL 603), or other public assistance (PIRL 604), because these categories can include non-cash assistance or assistance that is not means tested. Those identified as “Basic Skills/English Deficient” are either basic skills deficient (PIRL 804) or English-language learners (PIRL 803), or both; as explained in the TEGL, English-language learners count as basic skills deficient under the basic skills deficient priority category. The columns are not mutually exclusive.</td>
</tr>
</tbody>
</table>

Table II-8

<table>
<thead>
<tr>
<th>Column Heading</th>
</tr>
</thead>
<tbody>
<tr>
<td>The columns are defined based on PIRL 408. Values on this element are mapped to the columns as follows: 0= No Level Completed; 1, 2, 3= HS Graduate or Equivalent; 4= Some Postsecondary; 5= Technical or Vocational Certificate; and 6, 7, 8= Postsecondary Degree.</td>
</tr>
</tbody>
</table>

Table II-9

<table>
<thead>
<tr>
<th>Column Heading</th>
</tr>
</thead>
<tbody>
<tr>
<td>The “School Status” columns are defined based on PIRL 409. Values on this element are mapped to the columns as follows: 1, 2, 3= Attending; 4, 5, 6= Not Attending.</td>
</tr>
</tbody>
</table>
Table II-10 & II-11
These tables show the percentages (Table II-10) and counts (Table II-11) of characteristics of exiters by major service categories. The columns are defined based on PIRL elements using the guidance provided in TEGL 10-16 Change 1 Attachment 7 Table A. The columns are not mutually exclusive, because an exiter could have received any combination of basic career services, individualized career services, or training. The “Only Career Services” column includes those who received either basic career services or individualized career services (or both), but who did not also receive training. Those in the “Received Training” column (PIRL 1300=1) could also have received career services. Note that, consistent with TEGL 19-16, those who only receive self-services or informational services are not considered participants and, therefore, are not included in the tables in this part. A small number of exiters have an exit date but have no identifiable service. These individuals are included in the count of “All Exiters,” but are not included in any of the subsequent columns.

Table II-12
The first column includes those who received training of any type (this column duplicates the final column from Table II-10) and is based on PIRL 1300. The next columns show trainees by the type of training received, based on PIRL 1303, 1310, and 1315, as follows: codes 4, 7, 8=ABLE/ESL or Prerequisite Training; codes 1, 5, 9=Work-based Training; codes 2, 6, 10=Other Occupational Training; codes 3, 11=Other Training. A participant could have received training of more than one type. A small number of participants are designated as having received training but are missing a type of training; these individuals are included in the first column and the last column.

Tables II-13 to II-21
These tables show the services received by exiters identified by the column headings. Most numbers shown are the percentages within the column heading. Exceptions include the number of exiters and trainees, and the average weeks of participation and of training. In calculating percentages, exiters with missing data on either the row or column heading are excluded.

Basic and individualized career services, and training services, are defined based on PIRL elements using the guidance provided in TEGL 10-16 Change 1 Attachment 7 Table A (also see Appendix B of this Data Book). Under “Individualized Career Services,” those shown as receiving an internship or work experience include those with a date in PIRL 1203, those receiving employment opportunities excluding transitional jobs (codes 1 or 2 on PIRL 1205), those receiving transitional jobs (coded 6 on PIRL element 1205, or 1 on PIRL 1211), and those receiving other work experience (coded 3, 4, 5, 7 on PIRL 1205).

Tabulations for the “Characteristics of Training (among trainees)” are calculated just for those who received training. Under “Type of Training,” note that a trainee could have received training of more than one type. “Occupation of Training” is coded based on the first two digits of the O*NET classification.

Tables II-13 & II-14
These tables show trends over time in the percentage (the first table) or raw counts (the second table) of exiters who received various services. Column headings are defined as for Tables II-1 & II-2. Note that some services identified through the PIRL did not have analogues or were not defined similarly in the WIASRD and, for this reason, tabulations of those receiving many basic or individualized career services are not shown for periods prior to the introduction of the PIRL.

Table II-16
Columns are defined as for Table II-4.

Table II-17
Columns are defined as for Table II-5.

Table II-18
Columns are defined as for Table II-6.

Table II-19
Columns are defined as for Table II-7.

Table II-20
Columns are as defined for Table II-8.
<table>
<thead>
<tr>
<th>Table II-21</th>
<th>Columns are defined as for Table II-9.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Table II-22</td>
<td>Not tabulated at the state level.</td>
</tr>
<tr>
<td>Table II-23</td>
<td>This table shows services provided, by state. The column for “Number of Exiters” shows the count of exiters in the state. The remaining columns show the percentage within the state that received the service identified by the column (thus, unlike most other tables, this table presents row percentages, not column percentages). These values can be compared with the national values in the first row. Column headings are defined as for Tables II-10 &amp; II-11. The counts of exiters by state and the state’s distribution of exiters across the service categories may be affected by policies and practices regarding coenrollment, especially coenrollment between the WIOA Adult and Wagner-Peyser programs. For example, states that coenroll many Wagner-Peyser participants in WIOA will show high counts of exiters relative to the state’s WIOA funding level and low percentages who received training.</td>
</tr>
<tr>
<td>Table II-24</td>
<td>Columns are defined as for Table II-12. As in Table II-23, this table presents row percentages. Percentages across a row may exceed 100 percent, because trainees may receive training of more than one type.</td>
</tr>
<tr>
<td>Tables II-25 to II-34</td>
<td>Most outcomes in these tables are calculated for exiters. The exception is WIOA Measurable Skills Gains, which is measured for participants. The tables show each outcome for the most recent four quarters of exiters for whom the outcome data is available (with the exception of Tables II-25 and II-26, which show trends). Because the outcomes for exiters capture an exiter’s status at different periods after the exit date and due to the time lags in the measurement of employment and earnings (see Guide to the Reader), different rows are measured for different cohorts of exiters; that is, the most recent four-quarter cohort is different for each outcome measure. The footnotes clarify what the most recent four-quarter cohort is for each measure. All outcomes are calculated within the group defined by the column. Most numbers shown are the percentages within the column. Exceptions are the median and average earnings. In calculating percentages, averages and medians, individuals with missing data on either the row or column heading are excluded. The WIOA and WIA outcomes were calculated using the official definitions of these outcomes, as described in TEGL 10-16 Change 1, especially Appendix 10 (for WIOA), and TEGL 17-05 (for WIA). For example, in calculating WIOA performance, exiters are excluded if they exited by virtue of being incarcerated or hospitalized, had received medical treatment expected to last longer than 90 days that precluded them from continuing services or entering employment, were deceased, or were reservists called to active duty for at least 90 days. See the TEGLs for additional information about the calculation of the WIOA and WIA measures. “Types of Credentials Attained” is calculated among those with a credential attainment (as defined by TEGL 10-16 Change 1) and uses PIRL 1800, 1802, and 1804, with coding as follows: code 1=Secondary school diploma/ equivalency; codes 2, 3=AA, AS, BA, BS or other degree; code 4=Postgraduate degree; codes 5, 6, 7=Occupational credential; code 8=Other credential. “Types of Skill Gains” is calculated among those with a skill gain (as defined by TEGL 10-16 Change 1) and uses PIRL 1806, 1807, 1808, 1809, and 1810, to define the skill gain type (an entry in 1809 or 1810 defines other training or skill milestone). A participant could attain a skill gain of more than one type.</td>
</tr>
</tbody>
</table>
Unlike with Tables II-1, II-2, II-13, and II-14 (whose columns define exit cohorts), columns in these two tables represent outcomes known at the end the fourth quarter of the program year. The footnotes to the table clarify what the most recent four-quarter cohort is for each outcome at the end of each program year’s fourth quarter.

Table II-25 shows the calculated outcomes, while Table II-26 shows the number of exiters attaining positive outcomes. As noted, many cells in both tables are not shown for reasons explained in Guide to the Reader. WIA performance results included in these tables for PY 2013 through PY 2015 are slightly different from the official performance results posted on ETA’s website (see https://www.doleta.gov/performance/results/). This occurs because official performance was not calculated directly from the WIASRD. However, the differences are very slight.

<table>
<thead>
<tr>
<th>Table II-28</th>

</tr>
<tr>
<td>Tables II-35 &amp; II-36</td>
<td>These tables show the WIOA performance indicators and WIA common measures calculated as described for Tables II-25 to II-34 within each state. The tables present row percentages, not column percentages. These values can be compared with the national values in the first row.</td>
</tr>
</tbody>
</table>
Part III: Dislocated Worker Program

These tables present information for those in the Dislocated Worker program, including exiters from local and statewide programs and DWG projects. Dislocated Workers served by local and statewide programs are defined as PIRL 904 (coded as 1, 2, or 3); those served by DWG projects are defined by PIRL 932 (coded as 1). Individuals served only by rapid response are excluded, except those classified as receiving rapid response additional assistance (PIRL 909). Results show, in turn, the characteristics and services of exiters, and the outcomes of exiters or participants, as applicable.

### Tables III-1 & III-2
These tables show trends over time in the percentage (Table III-1) or raw counts (Table III-2) of exiters with various characteristics. Columns denoting each program year tabulate results for the most recent four quarters of exiters known at the end of the program year reporting report. Because there is one-quarter lag before a person’s exit date is known, the exit cohorts for these columns represent those who exited from April 1 of each program year to March 31 of the following year.

In data drawn from the WIASRD, whether a participant was a single parent was only reported for those who received intensive or training services, and not those who received only staff-assisted core services (according to the WIASRD, the latter group made up approximately 53 percent of all Dislocated Worker exiters who received staff-assisted services). For this reason as well, the trends in percentages (Table II-1) for exiters who are single parents can be misleading; counts (Table II-2) for years prior to the introduction of the PIRL are not shown for this element. Other characteristics reported in the PIRL (public assistance recipient, long-term unemployed, exhausting TANF within two years, homeless, ex-offenders, basic skills deficient, and facing cultural barriers) were not required reporting elements for Dislocated Worker program participants in the WIASRD and are not shown for prior years. Finally, note that Table III-2 presents counts of those with non-missing data; there is some missing data on most items, so counts are to some degree under-estimates.

### Table III-1 & Tables III-3 to III-13
See the notes to Tables II-1 & Tables II-3 to II-12, except that the Adult program priority groups do not apply to the Dislocated Worker program.

### Table III-5
Columns are defined as for Table II-4.

### Table III-6
Columns are defined as for Table II-5.

### Table III-7
Columns are defined as for Table II-6.

### Table III-8
The Adult program priority groups do not apply to the Dislocated Worker program. Nonetheless, this table is structured similarly to Table II-7. Those identified as “Basic Skills/English Deficient” are either basic skills deficient (PIRL 804) or English-language learners (PIRL 803), or both; as explained in the TEGL 19-16, English-language learners are considered to be basic skills deficient. The columns are not mutually exclusive.

### Table III-9
Columns are defined as for Table II-8.

### Table III-10
Columns are defined as for Table II-9.

### Table III-11 & III-12

### Part IV: National Dislocated Worker Grant Program

These tables present information for those in the Dislocated Worker Grant program, defined as PIRL 932 (code 1). Results show, in turn, the characteristics and services of exiters, and the outcomes of exiters or participants, as applicable.

| Tables IV-1 & IV-2 | These tables show a comparison of nation to state by DWG type in the percentage (Table IV-1) or raw counts (Table IV-2) of exiters with various characteristics. The columns are defined based on PIRL 2004 where Disaster Recovery is codes 1,2,3 and Economic Recovery is code 0 or blank. Columns tabulate results for the most recent four quarters of exiters known at the end of the program year. Because there is one-quarter lag before a person’s exit date is known, the exit cohort for these columns represent those who exited from April 1 of the program year to March 31 of the following year. Table IV-2 presents counts of those with non-missing data; there is some missing data on most items, so counts are to some degree under-estimates. |
| Tables IV-3 to IV-5 | See notes to Table II-1 & Tables II-3 to II-12. |
| Tables IV-3 & IV-4 | See notes to Tables II-10 & II-11. |
| Table IV-5 | See notes to Table II-12. |
| Tables IV-6 & IV-7 | These tables show a comparison of nation to state by DWG type in the percentage (Table IV-6) or raw counts (Table IV-7) of exiters who received various services. Column headings are defined as for Tables IV-1 and IV-2. |
| Tables IV-8 to IV-14 | Not tabulated at the state level. |
| Table IV-15 | See notes to Table II-23. |
| Table IV-16 | See notes to Table II-24. |
| Tables IV-17 & IV-18 | See notes to Tables II-25 & II-26. |
| Table IV-19 to IV-25 | Not tabulated at the state level. |
| Table IV-26 | Columns are defined as for Tables II-10 and II-11. |
| Tables IV-27 & IV-28 | See notes for Tables II-35 & II-36. |
Part V: Youth Program

These tables present information for those in the Youth program (identified from PIRL 905) and show the characteristics and services of exiters, and the outcomes of exiters or participants, as applicable.

| Tables V-1 & V-2 | These tables show trends over time in the percentage (Table V-1) or raw counts (Table V-2) of exiters with various characteristics. Columns denoting each program year tabulate results for the most recent four quarters of exiters known at the end of the program year reporting period. Because there is a one-quarter lag before a person’s exit date is known, the exit cohorts for these columns represent those who exited from April 1 of each program year to March 31 of the following year. Note that the WIA program included only youth ages 14 to 21, while WIOA expanded the eligible age range to 24. Some characteristics reported in the PIRL (unemployment claimants exempt, school status within age of compulsory attendance, SNAP recipient, facing cultural barriers, and displaced homemakers) were not required reporting elements for Youth program participants in the WIASRD and are not shown for prior years. Finally, note that Table V-2 presents counts of those with non-missing data; there is some missing data on most items, so counts are to some degree under-estimates. |
| Table V-1 & Tables V-3 to V-11 | See the notes to Tables II-1 & II-3 to II-12, except that preprogram wages and the Adult program priority groups do not apply to the Youth program. Also, highest educational level for Youth is coded based on PIRL 407 and 408. “8th grade or less” are those with PIRL 408=0 and PIRL 407<9; “Some secondary school” are those with PIRL 408=0 and PIRL 407=9 to 12; “Secondary school equivalency” are those with PIRL 408=2 or 3; “Secondary school graduates” are those with PIRL 408=1; “Some postsecondary” are those with PIRL 408=4; and “Postsecondary certificate or degree” are those with PIRL 408=5, 6, 7, or 8. |
| Table V-4 | Columns are defined as for Table II-4. |
| Table V-5 | Columns are defined as for Table II-5. |
| Table V-6 & V-7 | These tables are restricted to in-school youth and out-of-school youth, respectively, as defined by PIRL 409. |
| Table V-8 | The Adult program priority groups do not apply to the Youth program. Nonetheless, this table is structured similarly to Table II-7. Those identified as “Basic Skills/English Deficient” are either basic skills deficient (PIRL 804) or English-language learners (PIRL 803), or both; as explained in the TEGL 19-16, English-language learners are considered to be basic skills deficient. The columns are not mutually exclusive. |
| Tables V-10 & V-11 | These tables show the percentages (Table V-10) and counts (Table V-11) of characteristics of exiters by the Youth program’s 14 service elements (see TEGL 21-16) collapsed into five major categories. The columns are not mutually exclusive because an exiter could have received services of more than one type. Columns are defined as follows: |
| | • “Educational Services” includes those who received educational achievement services (PIRL 1402), alternative secondary school services (PIRL 1403), or education offered concurrently with workforce preparation (PIRL 1407), or have a date of having received postsecondary transition and preparatory activities (PIRL 1415). |
| | • “Work Experience” includes those who received any type of work experience (PIRL 1205), including transitional jobs (PIRL 1211) or on-the-job training (PIRL 1303, 1310, or 1315=1), or have a date of having received work experience (PIRL 1405). |
Appendix A

- “Guidance and Counseling” includes those who received comprehensive guidance and counseling (PIRL 1411), leadership development (PIRL1408), adult mentoring (PIRL 1410), financial literacy (PIRL 1206), labor market and employment information (PIRL 1414), or youth follow-up services (PIRL 1412).

- “Training” includes those who received skill upgrading, entrepreneurial training, ABE/ESL contextualized training, customized training, other occupational skills training, prerequisite training, registered apprenticeships, youth occupational skills training, or other non-occupational skills training (PIRL 1303, 1310, or 1315=2, 3, 4, 5, 6, 8, 9, 10, 11), or with a date for having received youth entrepreneurial skills training (PIRL 1413).

- “Supportive Services” are denoted by PIRL 1409.

A small number of youth exiters have an exit data but none of these services.

### Tables V-12 to V-20

These tables show the services received by exiters identified by the column headings. Most numbers shown are the percentages within the column heading. Exceptions include the number of exiters and trainees, and the average weeks of participation and of training. In calculating percentages, exiters with missing data on either the row or column heading are excluded.

Services under Youth Program Elements represent the 14 services as defined by WIOA law and described in TEGL 21-16. These services are defined through the PIRL as follows:

- Tutoring, study skills, dropout prevention: PIRL 1402
- Alternative school and dropout recovery: PIRL 1403
- Paid and unpaid work experiences: PIRL 1205, 1211, or 1405; or 1303, 1310, or 1315 (code 1)
- Occupational skills training: PIRL 1303, 1310, or 1315 (codes 2, 4, 5, 6, 8, 9, or 10)
- Education offered concurrently: PIRL 1407
- Leadership development opportunities: PIRL 1408
- Supportive services: PIRL 1409
- Adult mentoring: PIRL 1410
- Follow-up services: PIRL 1412
- Comprehensive guidance and counseling: PIRL 1411
- Financial literacy education: PIRL 1206
- Entrepreneurial skills training: PIRL 1413, or PIRL 1303, 1310, or 1315 (code 3)
- Labor market information: PIRL 1414
- Postsecondary preparation and transition: PIRL 1415

Note that follow-up services is only included as a row in the trends tables (Tables V-12 and V-13), and only for prior program years, because the incidence of follow-up services cannot be known until one year after a youth has exited.

Tabulations for the “Types of Work Experience (among those with work experience)” are calculated just for those who received paid or unpaid work experiences, as defined above; types are drawn from PIRL elements 1205, 1211, and 1303, 1310, or 1315 (code 1).

Tabulations for the “Characteristics of Training (among trainees)” are calculated just for those who received training (denoted under “Other Youth Activities” as “Received training,” defined by PIRL 1300). Under “Type of Training,” note that a trainee could have received training of more than one type. “Occupation of Training” is coded based on the first two digits of the O*NET classification.
<table>
<thead>
<tr>
<th>Tables V-12 &amp; V-13</th>
<th>These tables show trends over time in the percentage (the first table) or raw counts (the second table) of exiters who received various services. Column headings are defined as for Tables II-1 &amp; II-2. Note that some services identified through the PIRL did not have analogues in the WIASRD and, for this reason, tabulations of those receiving some services are not shown for periods prior to the introduction of the PIRL.</th>

</table>
Part VI: Wagner-Peyser Program

These tables present information for those in the Wagner-Peyser Program (identified from PIRL 918) and show the characteristics and services of exiters, and the outcomes of exiters or participants, as applicable.

| Tables VI-1 & VI-2 | These tables show trends over time in the percentage (Table VI-1) or raw counts (Table VI-2) of exiters with various characteristics. Columns denoting each program year tabulate results for the most recent four quarters of exiters known at the end of the program year reporting report. Because there is one-quarter lag before a person’s exit date is known, the exit cohorts for these columns represent those who exited from April 1 of each program year to March 31 of the following year.

Columns prior to program year 2016 are not shown because the WIASRD included only Wagner-Peyser participants who were co-enrolled in WIOA programs and trends would, therefore, be misleading. Finally, note that Table VI-2 presents counts of those with non-missing data; there is some missing data on most items, so counts are to some degree under-estimates (see Table II-4 for selected information on the extent of missing data, and notes to Table VI-1 & Tables VI-3 to VI-12, below, for additional information on the definition of exiter characteristics). |

| Table VI-1 & Tables VI-3 to VI-12 | These tables show the percentage of exiters identified by the column heading with various characteristics. All numbers are percentages except the number of exiters (shown in the first row) and average preprogram earnings.

Age is calculated as the difference between the year of program entry and the year of birth. If the month/day in the year of program entry is before the month/day of the year of birth, then one year is subtracted from the difference.

The category of “Employment Status” that is labelled “Not employed or with layoff notice” includes those employed but with a layoff notice, not in the labor force, or unemployed (PIRL 400 codes 0, 2, or 3).

“Highest educational level” is coded based on PIRL 408. Most row entries are straightforward representations of the PIRL element, but note that code 0=No educational level; codes 2,3=Secondary school equivalency; and codes 7,8=Bachelor’s Degree or higher.

Preprogram quarterly earnings represents the average (mean) earnings in the second quarter (PIRL 1700) and third quarter (PIRL 1701) prior to the quarter of program entry (based on PIRL 900). Those with zero earnings in one quarter but not the other are included in the average, and their average is calculated including the zero value; however, an exiter with zero earnings in both quarters is excluded from the average. In the tables showing trends over time, averages are shown in nominal dollars (that is, without an adjustment for inflation).

The percentage who are English language learners is calculated after excluding exiters in Puerto Rico.

In calculating percentages, exiters with missing data on either the row or column heading are generally excluded. An exception is for ethnicity and race. The ethnicity and various race categories are separate data elements in the PIRL, coded 1 for yes, 0 for no, and 9 for did not self-identify. A large number of records are coded as blank or code 9 on one or more of these variables but not all of them (see Table I-4 in the Data Book). For this reason, if a person was coded as being of a certain race, but had missing data on ethnicity or one or more of the remaining race categories (that is, neither a 1 nor a 0), the missing value was recoded to 0. The race categories are not mutually exclusive with each other or with
Hispanic ethnicity; a person could be identified as belonging to more than one race, and may also be identified by each of their race groups and as of Hispanic ethnicity.

Note that the row for SSI or SSDI includes Ticket Holders (see PIRL 602).

Table VI-4
In the “Ethnicity” and “Race” columns, exiters coded as “Not Hispanic” are those coded as 0 on PIRL 210 or those missing or coded as 9 on this element but who are of at least one race category. Exiters coded as “White Only” or “Black Only” are coded as 1 on PIRL 215 and 213, respectively, and are not also of any other race; however, they may be of Hispanic ethnicity. Those included in the “Other Race” column could be of any race other than white or black, or could be white or black in combination with any other race.

Table VI-5
In the “Employment Status” columns, the “Not Employed” column includes those employed but with a notice of layoff, not in the labor force, and unemployed.

Table VI-6
In the “Unemployment Compensation Status” columns, the “Claimant” column includes exiters referred or not by RESEA or WPRS, and claimants exempt from work search.

Table VI-7
Columns are veterans, disabled veterans, those receiving SSI/SSDI public assistance, low income individuals, and those who are basic skills deficient. Those identified as “Basic Skills/English Deficient” are either basic skills deficient (PIRL 804) or English-language learners (PIRL 803), or both; as explained in TEGL 19-16, English-language learners count as basic skills deficient under the basic skills deficient priority category. The columns are not mutually exclusive.

Table VI-8
The columns are defined based on PIRL 408. Values on this element are mapped to the columns as follows: code 0 = No Level Completed; codes 1, 2, 3 = HS Graduate or Equivalent; code 4 = Some Postsecondary; code 5 = Technical or Vocational Certificate; and codes 6, 7, or 8 = Postsecondary Degree.

Table VI-9
The “School Status” columns are defined based on PIRL 409. Values on this element are mapped to the columns as follows: codes 1, 2, 3 = Attending; codes 4, 5, 6 = Not Attending.

Table VI-10 & VI-11
These tables show the percentages (Table VI-10) and counts (Table VI-11) of characteristics of exiters by major service categories. The columns are defined based on PIRL elements using the guidance provided in TEGL 10-16 Change 1 Attachment 7 Table A. The columns are not mutually exclusive, because an exiter could have received any combination of basic career services, individualized career services, or training. The “Only Career Services” column includes those who received either basic career services or individualized career services (or both), but who did not also receive training. Those in the “Received Training” column (PIRL 1300=1) could also have received career services. Note that, consistent with TEGL 19-16, those who only receive self-services or informational services are not considered participants and, therefore, are not included in the tables in this section. A small number of exiters have an exit date but have no identifiable service. These individuals are included in the count of “All Exiters,” but are not included in any of the subsequent columns.
These tables show the services received by exiters identified by the column headings. Most numbers shown are the percentages within the column heading. Exceptions include the number of exiters and the average weeks of participation. In calculating percentages, exiters with missing data on either the row or column heading are excluded.

Basic and individualized career services, and training services, are defined based on PIRL elements using the guidance provided in TEGL 10-16 Change 1 Attachment 7 Table A (also see Appendix B of this Data Book). Under “Individualized Career Services,” those shown as receiving an internship or work experience include those with a date in PIRL 1203, those receiving employment opportunities excluding transitional jobs (codes 1 or 2 on PIRL 1205), those receiving transitional jobs (code 6 on PIRL element 1205, or 1 on PIRL 1211), and those receiving other work experience (codes 3, 4, 5, 7 on PIRL 1205). “Other individualized services” represent participants who had a date of first individualized career service (PIRL 1200) but received none of the services listed in the tables.

“Received any training” is based on PIRL 1300, which is not currently a required reporting item for Wagner-Peyser. The percentages shown are based on all Wagner-Peyser exiters, however, only those co-enrolled in WIOA programs have reported receipt of training.

These tables show trends over time in the percentage (the first table) or raw counts (the second table) of exiters who received various services. Column headings are defined as for Tables VI-1 & VI-2. Columns prior to PY 2016 are not shown because the WIASRD included only Wagner-Peyser participants who were co-enrolled in WIOA programs and trends would, therefore, be misleading.

Columns are defined as for Table VI-4.

Columns are defined as for Table VI-5.

Columns are defined as for Table VI-6.

Columns are defined as for Table VI-7.

Columns are as defined for Table VI-8.

Columns are defined as for Table VI-9.

This table shows services provided, by state. The column for large number of Exiters shows the count of exiters in the state. The remaining columns show the percentage within the state that received the service identified by the column (thus, unlike most other tables, this table presents row percentages, not column percentages). These values can be compared with the national values in the first row. Column headings are defined as for Tables VI-10 & VI-11.

The counts of exiters by state and the state’s distribution of exiters across the service categories may be affected by policies and practices regarding co-enrollment, especially co-enrollment between the WIOA Adult and Wagner-Peyser programs. For example, in states that coenroll most or all WIOA participants in Wagner-Peyser, exit counts may be somewhat larger relative to Wagner-Peyser funding and the percent receiving training higher than in other states.

See notes to Tables II-25 to II-34.

See notes to Tables II-25 & II-26.

Appendix B: Cross-reference to PIRL Elements

This appendix denotes the PIRL element from which row categories for the table shells are drawn. Note that not all row categories are applicable for participants of each of the programs. For the definition of each PIRL element, their codes, and the programs to which each PIRL element applies, see the DOL-only specifications of the PIRL, available at: [https://www.doleta.gov/ performance/reporting/](https://www.doleta.gov/ performance/reporting/) (the specifications for the PIRL on which this Data Book is based were downloaded on February 13, 2018).

## Row Item | PIRL Element
---|---
Exhausting TANF within 2 years | 601 (not applicable for Youth and Wagner-Peyser before 7/1/2018)
Homeless individuals or runaway youth | 800
Ex-offenders | 801 (not applicable for Wagner-Peyser before 7/1/2018)
Low income | 802
English language learners | 803
Basic skills deficient | 804
Facing substantial cultural barrier | 805
Single parents | 806
Displaced homemakers | 807
Pregnant or parenting youth | 701 (Youth only)
Youth who need additional assistance | 702 (Youth only)
Foster care youth | 704 (Youth only)

### Services

- Any corenrollment: Any of the codes below applicable for each program
  - WIOA Adult: 903
  - WIOA Dislocated Worker: 904
  - WIOA Youth: 905
  - Wagner-Peyser: 918
  - Vocational Rehabilitation: 917
  - Adult Education: 910
  - WIOA National Farmworker Jobs: 912 excludes unknown grant codes (not shown separately for Youth)
  - WIOA Indian and Native American: 913 excludes unknown grant codes (not shown separately for Youth)
  - Veterans’ programs: 914
  - Vocational Education: 916
  - YouthBuild: 919 (not applicable for Dislocated Workers and DWG)
  - Senior Community Services: 920 excludes unknown grant codes (not applicable for Youth)
  - SNAP Employment and Training: 921 (except for Dislocated Workers and DWGs; not shown separately for Youth)
  - Job Corps: 911 (Youth only)
  - Other partner programs: 912, 913, 921 (for Youth)
  - Homeless Veterans’ Reintegration Program (HVRP): 928, 929, 932, 936, 937, 937 (for Wagner-Peyser)

- Basic Career Services: (not applicable for Youth)
  - Self-service or informational service: 1000 or 1002
  - Any staff-assisted basic career service: 1001 or 1103
    - Workforce information services: 1103
    - Career guidance: 1102
  - Staff-assisted job search: 1104
  - Referred to employment: 1105, 1108, 1109, 1110, 1111
  - Referred to Federal training: 1106 or 1107
  - Assistance with UI: 1112
  - Other basic services: 1114, 1115, or 1116

- Individualized Career Services: (not applicable for Youth)
  - Any individualized career service: 1200
  - IEP created: 1202
  - Internships or work experience: See notes to Tables II-13 to II-21 in Appendix A
