REEMPLOYMENT SERVICES PERFORMANCE REPORT

STATE: Maine

DATE: 11/08/2005

STATE SPECIFIC PERFORMANCE REPORT (Add additional sheets if necessary.)

Describe activities and an overview of how the activities were accomplished. Include milestones, and positive outcomes achieved. Compare accomplishment of planned performance goals with the attainment of the performance indicators identified by the State in the annual plan.

This report reviews the activities and performance of the PY '04 Reemployment Services grant awarded to Maine in the amount of \$290,481.

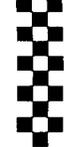

The PY '04 plan was to enroll selected profiled claimants into an intensive two-week job search workshop that ends with a job placement for participants. The strategy was to deliver the workshop in six local offices to those profiled claimants who were assessed as appropriate and who volunteered to attend.

The performance goal was that the average benefit period for profiled claimants who completed services would be at least three weeks shorter than the average benefit period for all UI claimants.

The 9048 report for the quarter ending June 30, 2005, shows 6,654 total profiled claimants. Of those, 1,380 were referred to and reported for services. Of those, 944 (68%) completed services with referrals to employers.

For the quarter ending March 31, 2004 - the most recent period for available published data - the average duration of UI compensation for those who were notified to come to a CareerCenter and who received services was 14.4 weeks, compared to 17.7 weeks for the general UI population. It should be noted that the period of reported UI duration is prior to the PY '04 performance period because of the seven quarter delay in UI wage record data availability. However, the data show an auspicious trend.

The 9048 and 9049 reports are attached.
