Rural Alaska Health Education & Training
(HEAT) Project

The HEAT Project was funded in part by the grant awarded under the President's Community-Based Job Training Grants, as implemented by the U.S. Department of Labor's Employment & Training Administration. Auxiliary aids and services are available upon request to individuals with disabilities. This project is also sponsored through partnerships between UAF College of Rural and Community Development Health Programs, the Alaska Job Center Network, as well as many employers and health care agencies throughout rural Alaska.
UAF is an affirmative action/equal opportunity employer and educational institution
